

The Farm at Creekside HOA Yard of the Month for August 2020 belongs to Brian and Anne Cookson, 2210 Pintail Drive. Brian and Anne are the original owners of 2201 Pintail Drive, and as such, have experimented with various landscape designs over the years. The current concept has been evolving over the past several years into a flower garden interspersed with moss rock and some local evergreen bushes. They have enjoyed adding flowers and flowering bushes every year, with the goal of always having something bloom from springtime through fall. Currently, the flower bed includes, Tea Rose Bushes, Spirea, Phlox, Bluebells, Yarrow, Daisies, and Dense Blazing Stars. They look forward to continuing to add color and freshness to their front yard flower garden. Brian and Anne really enjoy the large maple tree that they planted 20 years ago in the center of their front yard. It has grown into a beautiful tree providing shade in the summer and vibrant colors in the fall. Thanks to Bees and Trees, the Maple has matured into a healthy tree over the years. Bees and Trees has also taken care of their trees in the backyard, a Pear tree, an Ash, several Columnar Pines, and a Crab Apple Tree. Congratulations to Brian and Anne, Yard of the Month, August 2020.
