

Plan Ahead to Avoid Emergency Breakdowns.

Take advantage of scheduled system down-time by reserving a PM (Predictive Maintenance) Service with Tighe Industrial.

Our experienced technicians will use state-of-the-art test equipment, including thermal imaging, to analyze motors and drives, pinpoint loose connections, broken parts, burnt wires and more BEFORE they catch you by surprise. By evaluating and troubleshooting your equipment proactively, you'll reduce your risk for costly emergency shutdowns which gives you more time to focus on more important things. We'll provide recommendations on repair or replacement parts along with documentation of all our findings.

Plan ahead with a PM Service from Tighe Industrial.

WHY DO PM's?

- Increases the life span of equipment
- Can identify potential problems or concerns
- Can identify dated or obsolete equipment
- Provides documentation of existing equipment
- Proactive is better than reactive \$\$\$
