*'Listen, this is just 1 time, forget the conspiracy, listen to our government agencies, these guys are telling the truth. You know, there is no conspiracy here folks. **Just get your damn vaccine!**'*
-NBC's Chief Medical Editor Dr. Nancy Snyderman, 2010

The purpose of this study is to consider the allegations of very prominent Scientists and Professors that have come out against the official narrative of the government concerning COVID-19. At the beginning of the outbreak, the question was asked, where are all the good Scientists and Doctors, Professors at? In part, it was due to the situation occurring so abruptly, just as Dr. Fauci had warned back in 2017 that , A surprise virus was to most assuredly appear in Trump's Presidency.' But then as the 14-day stay at home order came and went with a perpetual extension from that point on, many started to question all this 'pandemic' crisis. Or has it really been a crisis? Since then, there have been many Doctors, Professors, and Scientists that have spoken out.

The issue is that such have been and are deemed the usually, Conspiracy Theorists' now to discredit them. The World Health Organization, the CDC and other have joined efforts with Big Tech to censor what they deem is 'mis-information'. Videos are being taken down and scientific papers forced to retract finding. Why? One thought Science is about open and honest discourse? One would or could believe in there being Conspiracy Theories if such claims that have gone totally against the official Scientific Orthodox would be coming from the 'common Useless Eaters' that they seek to kill off. But no, all the opposition and differing of scientific inquiry and findings are coming from their very own. It is coming from the Scientific Community that is equally if not more expert and scientific to challenge the current 'plandemic' it would appear.

So, one cannot even ask what is in the COVID-19 vaccine. One cannot ask for to be administered proven alternative treatments to virus that have been in the past with such cases as Hydroxychloroquine. In fact, any hint of a possible treatment is taken of the table, banned and their factories burned to the ground. Why? So long as there is a viable alternative treatment, they cannot enforce any measure of a vaccination agenda. There is also no liability that the vaccine manufacturers take on as they have a free hand in now educing an experimental shot that Doctors, when asked would not know what is being injected into a person's body. It is new technology, mRNA that expresses a Spike Protein but it has never been tested in mass on humans. In metaphorical terms, it is like a person wanting to buy a car. Great. But then the government gets together with the Dealer and can only allow people to purchase 1 type of car. And the lot only has that 1 model. When asked to see what is under the hood, the motor, it is denied. When one wants to turn the ignition and hear the motor, that is denied.

And then when the buyer drives off the lot, the wheels fall off. That is not the problem of the Dealer, nor the government. One cannot get any money back and you cannot return the vehicle. Who in their right mind would fall for this con-job? Apparently, the whole world is. And this is beyond the reasoning ability to consider a Risk Assessment of the COVID-19 shots. On one hand, you have those that emphatically want everyone to 'believe' by faith the words of the Scientists' and one should trust them, 'Trust Science'. Yet let us compare the risks. No COVID-19 Shots would risk a person to a 95-99% recovery rate if infected by the COVID-19 virus. And this is coming from the CDC statistics. The risk would also ensure a death rate comparable to the past years of the Seasonal Flu. Then the COVID-19 shots. One would risk not knowing what is actually being injected. One would not be immune totally.

The risk would be to suffer total organ failure, be injected with aborted baby cell lines, HIV inserts, could compromise one's Immune System, cause paralysis, be subject to sterilizing agents, and alter forever the DNA of every cell on one's body. Thus, which would have the better Risk Assessment? And what are the expert Scientists that are questioning the official Science telling or warning the world about? What are they saying? They are saying that nations will be experiencing a vaccine reaction and syndrome exponentially worse than what experience with U.S. Soldiers who had the Gulf War Syndrome. That people now, as the Gulf War Soldiers then, are being injected with Experimental Biological Warfare vaccines. They warn that it will be the 'Gulf War Syndrome' for not only the entire U.S. population due to their Pfizer and Moderna vaccines, but for the entire world.

That the COVID-19 shot is indeed a Biological Weapon that is being deployed and that it will cause harm and death on a grand scale, eventually. These vaccinations are going to cause a great slaughter. And the controlled Mass Media will not be reporting on the million injured or dead but will be attributing them not on the severe reactions to the shots but on COVID-19. In the UK. Many of these courageous Doctors and Scientists have plainly stated publicly that the COVID-19 shots are a Bio-Weapon and not a vaccine, it lowers one's Immune System. So, eventually an infection will kill anyone who takes it. How so? It damages the Immune System and leaves one open to infection. The real side-effects will start to be seen in 3-6 months. Why?

Some Scientists, Doctors and Professors have independently come to a similar conclusion. Eugenics. It is all about the 'Great Reset' of the Luciferian Globalists. It is a Globalist Agenda 2030 where they want to take all private property, for example and all private wealth. And the only way they can do this is to kill-off a lot of people. Many present research and evidence to show that this COVID-19 pandemic is an orchestrated plot. It is a conspiracy to push this shot that is serving as a Biological Weapon System. According to those coming out of the Globalist camp, they want less than 500,000 million in the world by 2025. And for the USA, from 350 million to about 100 million. And the COVID-19 shots are tied to the 5G weapon system. How so? Once an event occurs that will allow for the 'switch' to be turned-on, the frequencies will activate the dormant Nano-Bots infused in the shots. They will be transmitting 24/7 in real time the body's biometric readings, etc.

For example, there is Dr. Boyle who believes that COVID-19 is an 'Offensive Biological Warfare Weapon' that leaked from China's Wuhan BSL-4 Lab. A Biosafety Level 4 Lab is the highest level of security for deadly pathogens. He says all BSL-4 Labs 'leak' these dangerous pathogens; and this was a 'leak' from China's. He says he has the 'paper trail that shows that the FDA, Harvard Massachusetts General Hospital Complex, NIH, HHS, and NIAD were all involved in this research and that Dr. Fauci was directly involved in the 'creation' of this Bio-Weapon. Then there was the University of North Carolina's BSL-3 Lab that received a 'Synthetic Recombinant SARS Virus from Wuhan's BSL-4 Lab. Recombinant means that it was man-made in a lab and not occurring naturally. It was used for viral technology called, 'Gain-of-Function'. Gain-of-function means using DNA Genetic Engineering and Synthetic biology to make a Pathogen more lethal and more infectious. So, in other words, this U.S. university lab was to make this SARS virus more deadly.

There was outrage from Virologists and Epidemiologists across the country concerning this particular research and the paper written about it. They demanded a stop to this research, 'to cease and desist'. The Chinese Scientists left the University of North Carolina's BSL-3 Lab and went to the Wuhan's BSL-4 Lab. Then there was the Indian research paper that looked at COVID-19 virus early in the pandemic and discovered and reported that the DNA from HIV had been genetically engineered right into the COVID-19 virus. This had become clear that COVID-19 was indeed a weaponized Corona Virus. The HIV element surfaced in Australia as the Australian Health Board was also involved. Their Scientists genetically engineered the HIV DNA directly into SARS. So, much so, that Australians who took the Covid-19 vaccine there caused false-positives for HIV tests there.

2. [Why an Australian COVID-19 vaccine caused false-positive HIV tests | Live Science](#)
3. [Australian COVID-19 vaccine trials ended after test subjects return 'false positive' HIV](#)

Where did the HIV come from to result in HIV antibodies? Australia had people in this clinical trial. How did Researchers Know to test them for HIV antibodies and why would they be testing these people for HIV anyway? The clinical trials are supposed to be on the healthiest people in the population, not people with HIV. This was evidence that indeed, the COVID-19 virus and its shots have infused HIV cell line inserts to increase the efficacy of its delivery to ensure penetration to the cell's nucleus.

There are even former Soviet Doctors who actually worked on such Biological Warfare studies with viruses and inoculations. You have for example, Dr. Igor Shepherd. He is a former Russian Medical Doctor and Officer who works for the Wyoming Health Department as a Weapons of Mass Destruction Expert. He believes, based on his training and research in Russia, that this mRNA vaccine is a 'Weapon of Mass Destruction'. As to Big Pharm collaborating with the Chinese Communist Party, a Harvard University Professor and Chinese colleagues were arrested at the Airport in their attempt to smuggle biological agents back to China. The official report follows.

Harvard University Professor and Two Chinese Nationals Charged in Three Separate China Related Cases

The Department of Justice announced today that the Chair of Harvard University's Chemistry and Chemical Biology Department and two Chinese nationals have been charged in connection with aiding the People's Republic of China.

Dr. Charles Lieber, 60, Chair of the Department of Chemistry and Chemical Biology at Harvard University, was arrested this morning and charged by criminal complaint with one count of making a materially false, fictitious and fraudulent statement. Lieber will appear this afternoon before Magistrate Judge Marianne B. Bowler in federal court in Boston, Massachusetts.

Yanqing Ye, 29, a Chinese national, was charged in an indictment today with one count each of visa fraud, making false statements, acting as an agent of a foreign government and conspiracy. Ye is currently in China.

Zaosong Zheng, 30, a Chinese national, was arrested on Dec. 10, 2019, at Boston's Logan International Airport and charged by criminal complaint with attempting to smuggle 21 vials of biological research to China. On Jan. 21, 2020, Zheng was indicted on one count of smuggling goods from the United States and one count of making false, fictitious or fraudulent statements. He has been detained since Dec. 30, 2019.

Dr. Charles Lieber

According to court documents, since 2008, Dr. Lieber who has served as the Principal Investigator of the Lieber Research Group at Harvard University, which specialized in the area of nanoscience, has received more than \$15,000,000 in grant funding from the National Institutes of Health (NIH) and Department of Defense (DOD). These grants require the disclosure of significant foreign financial conflicts of interest, including financial support from foreign governments or foreign entities. Unbeknownst to Harvard University beginning in 2011, Lieber became a "Strategic Scientist" at Wuhan University of Technology (WUT) in China and was a contractual participant in China's Thousand Talents Plan from in or about 2012 to 2017. China's Thousand Talents Plan is one of the most prominent Chinese Talent recruit plans that are designed to attract, recruit, and cultivate high-level scientific talent in furtherance of China's scientific development, economic prosperity and national security. These talent programs seek to lure Chinese overseas talent and foreign experts to bring their knowledge and experience to China and reward individuals for stealing proprietary information. Under the terms of Lieber's three-year Thousand Talents contract, WUT paid Lieber \$50,000 USD per month, living expenses of up to 1,000,000 Chinese Yuan (approximately \$158,000 USD at the time) and awarded him more than \$1.5 million to establish a research lab at WUT. In return, Lieber was obligated to work for WUT "not less than nine months a year" by "declaring international cooperation projects, cultivating young teachers and Ph.D. students, organizing international conference[s], applying for patents and publishing articles in the name of" WUT.

The complaint alleges that in 2018 and 2019, Lieber lied about his involvement in the Thousand Talents Plan and affiliation with WUT. On or about, April 24, 2018, during an interview with investigators, Lieber stated that he was never asked to participate in the Thousand Talents Program, but he “wasn’t sure” how China categorized him. In November 2018, NIH inquired of Harvard whether Lieber had failed to disclose his then-suspected relationship with WUT and China’s Thousand Talents Plan. Lieber caused Harvard to falsely tell NIH that Lieber “had no formal association with WUT” after 2012, that “WUT continued to falsely exaggerate” his involvement with WUT in subsequent years, and that Lieber “is not and has never been a participant in” China’s Thousand Talents Plan.

Yanqing Ye

According to the indictment, Ye is a Lieutenant of the People’s Liberation Army (PLA), the armed forces of the People’s Republic of China and member of the Chinese Communist Party (CCP). On her J-1 visa application, Ye falsely identified herself as a “student” and lied about her ongoing military service at the National University of Defense Technology (NUDT), a top military academy directed by the CCP. It is further alleged that while studying at Boston University’s (BU) Department of Physics, Chemistry and Biomedical Engineering from October 2017 to April 2019, Ye continued to work as a PLA Lieutenant completing numerous assignments from PLA officers such as conducting research, assessing U.S. military websites and sending U.S. documents and information to China.

According to court documents, on April 20, 2019, federal officers interviewed Ye at Boston’s Logan International Airport. During the interview, it is alleged that Ye falsely claimed that she had minimal contact with two NUDT professors who were high-ranking PLA officers. However, a search of Ye’s electronic devices demonstrated that at the direction of one NUDT professor, who was a PLA Colonel, Ye had accessed U.S. military websites, researched U.S. military projects and compiled information for the PLA on two U.S. scientists with expertise in robotics and computer science. Furthermore, a review of a WeChat conversation revealed that Ye and the other PLA official from NUDT were collaborating on a research paper about a risk assessment model designed to decipher data for military applications. During the interview, Ye admitted that she held the rank of Lieutenant in the PLA and admitted she was a member of the CCP.

Zaosong Zheng

In August 2018, Zheng entered the United States on a J-1 visa and conducted cancer-cell research at Beth Israel Deaconess Medical Center in Boston from Sept. 4, 2018, to Dec. 9, 2019. It is alleged that on Dec. 9, 2019, Zheng stole 21 vials of biological research and attempted to smuggle them out of the United States aboard a flight destined for China. Federal officers at Logan Airport discovered the vials hidden in a sock inside one of Zheng’s bags, and not properly packaged. It is alleged that initially, Zheng lied to officers about the contents of his luggage, but later admitted he had stolen the vials from a lab at Beth Israel. Zheng stated that he intended to bring the vials to China to use them to conduct research in his own laboratory and publish the results under his own name.

The charge of making false, fictitious and fraudulent statements provides for a sentence of up to five years in prison, three years of supervised release and a fine of \$250,000. The charge of visa fraud provides for a sentence of up to 10 years in prison, three years of supervised release and a fine of \$250,000. The charge of acting as an agent of a foreign government provides for a sentence of up to 10 years in prison, three years of supervised release and a fine of \$250,000. The charge of conspiracy provides for a sentence of up to five years in prison, three years of supervised release and a fine of \$250,000.

The charge of smuggling goods from the United States provides for a sentence of up to 10 years in prison, three years of supervised release and a fine of \$250,000. Sentences are imposed by a federal district court judge based upon the U.S. Sentencing Guidelines and other statutory factors.

Assistant Attorney General for National Security John C. Demers, United States Attorney Andrew E. Lelling; Special Agent in Charge of the FBI Boston Field Division Joseph R. Bonavolonta; Michael Denning, Director of Field Operations, U.S. Customs and Border Protection, Boston Field Office; Leigh-Alistair Barzey, Special Agent in Charge of the Defense Criminal Investigative Service, Northeast Field Office; Philip Coyne, Special Agent in Charge of the U.S. Department of Health and Human Services, Office of Inspector General; and William Higgins, Special Agent in Charge of the U.S. Department of Commerce, Office of Export Enforcement, Boston Field Office made the announcement. Assistant U.S. Attorneys B. Stephanie Siegmann, Jason Casey and Benjamin Tolhoff of Lelling's National Security Unit are prosecuting these cases with the assistance of trial attorneys William Mackie and David Aaron at the National Security Division's Counterintelligence and Export Control Section.

The details contained in the charging documents are allegations. The defendants are presumed innocent unless and until proven guilty beyond a reasonable doubt in a court of law.

These cases are part of the Department of Justice's China Initiative, which reflects the strategic priority of countering Chinese national security threats and reinforces the President's overall national security strategy. In addition to identifying and prosecuting those engaged in trade secret theft, hacking and economic espionage, the initiative will increase efforts to protect our critical infrastructure against external threats including foreign direct investment, supply chain threats and the foreign agents seeking to influence the American public and policymakers without proper registration.
