

Follow Heartdwellers Africa Youtube Channel For Messages

June 10th, 2023

Hello brothers and sisters and Heartdwellers family. This is Mother Elisha of Heartdwellers Africa. May the Lord give us all the grace of fortitude, faith and diligence in the midst of our trials

I know we have been away from our second channel for a while. However, 4 weeks ago Jesus gave us a heads up many trials of faith were coming, a storm and it hit me personally pretty hard. Where I had to make our from Jesus with Love YouTube channel private for a few weeks and take many messages down as well. After about two weeks I thought I was now seeing some light of hope as personal things started turning around for the better.

Then I heard again another storm is coming and many of our priest received the same message that now a storm was coming to Heartdwellers.

I wasn't sure what that would be but when the Lord finally gave me the go ahead to make the from Jesus with love YouTube channel public again and immediately the next day, we were hit with three strikes from old messages that mentioned Covid and they flagged it as misinformation. I know it is plain censorship and was so upset they suspended our main channel from Jesus with love for three months. We have our second channel Heartdwellers Africa and immediately posted on there to get a strike on this channel too speaking about Trump.

I thought wow the opposition is great but just as Jesus told us and Mother Clare the enemy cannot stop Gods word from going forth, but we definitely need to be smarter and wiser now dealing with an online ministry and especially YouTube.

However, God is faithful and continues to protect us all and His work. All messages from myself and Heartdwellers Africa family will be now shared on our Heartdwellers Africa YouTube channel. Please go there to get the latest messages from Jesus and also to continue to come along side us in the journey of building the City of God community in Ghana.

This will be our main channel until the suspension is lifted. We are also building a new website since we had our name change and we are now on the ground, in the field in Ghana. We wanted to convey very clearly all we do here in Africa helping people as we also take steps in building the community. We will have a launch date soon.

Thank you again Heartdwellers family for your faithfulness, your commitment, your prayers and support throughout this entire journey not only for myself but for all Heartdweller missionaries and We thank the Lord for Mother Clare and Father Ezekiel for their perseverance during their trials in ministry which give us the inspiration and courage to endure and perseverance when we are faced with the same persecution.

God bless you family until the next message
