Employee timekeeping Simple. Fast. Affordable.

An employee time clock system made exclusively for use with Point of Success POS software.

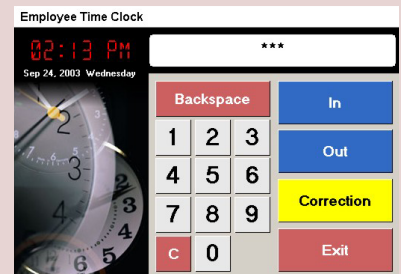

Point of Success Employee Timekeeping tracks employee hours worked, prints reports to assist with payroll production, and works with the staff information entered and stored in Point of Success software.

The everywhere time clock

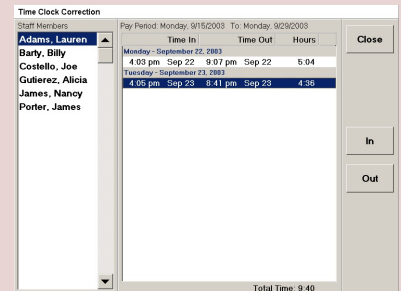

Install the employee timekeeping software to make every network workstation a time clock. Employees enter their PIN, then touch the In or Out button to complete a time clock entry.

Makes a manager's job easier

With Point of Success Employee Timekeeping, supervisors can easily fix incorrect or forgotten time clock entries anywhere the software is installed. Payroll preparation is faster with clear, concise time reports listing every employee who worked during the pay period and each employee's hours.

Enter a PIN number and touch the In, Out or Correction button.

Time clock corrections are protected with Point of Success security features, allowing only designated employees to change or correct time clock records.
