

Malaria Prevention, Control and Management (AMREF)

This course was designed in order to equip you with the knowledge, skills and right attitudes to fight malaria. In particular, it was intended to:

- Provide health workers at different levels of health care service with knowledge, skills, practice and attitudes on malaria prevention and control through self-guided/tutored materials on malaria;
- Provide you with a quick reference for use at your place of work so that you can effect prompt diagnosis, appropriate treatment and/or referral of malaria cases;
- To provide you with simple diagnostic and treatment guidelines which you can internalize through self-guided learning.
