

Dear Piper,

Although I never meet you, I loved you from the moment I saw your picture, your beautiful blue eyes and happy smile touched my heart in ways I hope you know. Your journey in life was one of service. You brought many beautiful puppies into this world who I hope have gone to loving families and will have good lives.

I want you to know that in my heart, and in the heart of others you will never be forgotten. Your experience here in Fresno Ca. has brought a community of strangers together who other wise would have never meet, you are loved by many who will never know you, as a result you have raised the vibration of a community to be loving, kind, and helpful to those in need.

Thank you, dear Piper for your service. Though your journey here was short you will have forever touched the hearts of strangers who will now endeavor to be better humans to our own kind and to our animal friends. Bless you dear Piper, rest easy girl you so deserve peace and love and all of the wonderful things that crossing over the rainbow bridge will bring to you. Run free, know that you are loved beyond measure and you, in my heart and others will never be forgotten.
