

Gary Devlin – Picking His Heart’s Desire

Computer technology sales professional turned song writer... or is it the other way around? “Perhaps both depending on your frame of reference,” says Gary Devlin, a Ft. Worth based songwriter and guitarist who has just released his debut CD, *Pick Your Heart’s Desire*. “My inner artist has been with me all along... I just took a little time to develop and record it!”

And develop he has – sales by day, music by night, building his unique sound, distinguished voice and musical style that is uniquely Gary Devlin. “I’m not the youngster that sold his soul to rock & roll at 19 years old and then had to find a ‘real’ job,” says Gary. He did the opposite – got a real job and raised a family but kept the fire burning, slowly writing and producing his own music. So the time has arrived and Gary has launched his musical and song writing career with PYHD, which was officially released on May 21, 2016. The full length, studio CD is a collection of indie songwriter material that weaves threads of skillful guitar work, an uplifting and feel good vibe, and a little darkness to keep it real. Most fans react with a smile... it’s clear he’s having fun.

Pick Your Heart’s Desire, Gary Devlin’s CD Debut

A lifelong guitar player with a bent for composing and arranging since he was a kid, Gary made the decision several years ago to focus on his own material. “Why not go for the best of both worlds? As a songwriter, I’m shopping my songs to publishers and major artists, but as an artist I’m putting this material out there with my own interpretation, style and performance.” With a love song like “Home Depot Girl,” which will stick in your head after one hearing, and a missed opportunity like “The Last Dance,” Gary’s music is crafted for mass appeal – approachable, not pretentious – with equal doses of rock, country, folk, and blues, and even a couple amazingly complex and effective instrumental compositions. Then he may just catch you off guard with “Give Love Away” or “Pick Your Heart’s Desire,” the title cut of CD. It’s refreshing for something this soulful to encourage and uplift... it’s that positive vibe once again that just gets you and makes you feel good.

With *Pick Your Heart’s Desire*, Gary knows where he wants to take his listeners and they like going with him. “Response has been great so far. I’m clearly not the only one that is picking my heart’s desire... It’s catching on!”
