PUPPY GUARANTEED AS FOLLOWS:

The seller guarantees that your pup will be in good physical conditions for the first 48 hours after the time of delivery to the buyer. The buyer agrees to have the puppy examined in that time frame for a complete physical exam. If the buyer fails to have the puppy seen and documented of this, the guarantee is not valid and no animal/money will be refunded. If the vet finds the animal to have a serious physical condition other than a viral/bacterial cold such as coccidian or giardia-bloody stools, or kennel cough, upper respiratory infection that can be easily treated, the seller will replace the puppy with another comparable pup when available (from same or subsequent litter), after the original puppy is returned to the seller at the buyer's cost (no cash refunds for the animal). The seller reserves the right to a second veterinarian's opinion at the expense of the seller. No replacements will be given in the case of parvo/coccidia/giardia which can be brought on by several factors (stress of shipping, new environment/food/people/weather). Kennel cough is caused by bacteria and must run its course; it can be seen in dogs that are shipped out. All puppies are treated before they leave according to its age (shots/worming). We do not and will not cover any treatment for those issues listed above.

We guarantee against all genetic/hereditary defects that causes serious impairment of the vital functions of the animal until it is one year of age. The seller does not/will not pay any vet bills for any reason. If a genetic/hereditary defect is found, seller will exchange that puppy with another of equal value, subject to a veterinarian's signed and dated statement of the genetic condition along with the cause of the defect/condition along with supporting evidence-ie x-rays ;(subject to a review of a veterinarian of the sellers choice at the buyers expense). Premature death must have proper

documentation/diagnosis made by a licensed veterinarian to prove the cause of death, without this, the pup will not be covered in any way. The seller has the right to a second opinion with a vet of seller's choice at the cost of the buyer. No money will be refunded for any reason.

The seller is not responsible for defects/conditions caused by the buyer's neglect, abuse, improper nutrition, mishandling or any Injuries to the animal caused by said conditions. Breeding or participation in extreme sports voids this guarantee.

Any problems with the hips must be documented with sufficient supporting evidence (x-rays for OFA/PENN HIP) by a licensed vet. Seller reserves the right to a second opinion by a vet of our choice at the cost of the buyer. This condition must be proven to be an inherited defect. If this is found to be true, the buyer is entitled to a replacement puppy if seller agrees to replace it. The only amount that would be credited back is the original cost of the puppy purchased, and the shipping cost is not included (we do not cover shipping charges). If the replacement puppy costs more, the buyer must pay the difference.

This guarantee does not cover what is considered normal or out of our control in a bulldog breed (loose hips, cherry eyes, eye problems-entropion, stenotic nares, skin allergies) We cannot guarantee that the dog will not contract those mentioned above or mange. Mange is a multifactorial disease that can be caused by environment, stress, and/or nutrition. Skin allergies or umbilical hernias (outies) are not covered. We do not breed dogs with undesirable conditions such as mange or bad hips, but we cannot guarantee that previous generations before did not have these conditions in their lines. GENERAL INFORMATION:

Every line of dog has some issue(s) common to their breed. The OEB is a recreation of the Bulldog and one reason it was recreated was to help eliminate many of the established problems that the English bulldog has. Remember, this dog is still a bulldog and some problems will arise. The flatter face, rolling gait, short tail, and big chest are examples. A puppy under stress is more susceptible to illnesses. Their immune system is compromised during stress. It can take several days for your puppy to be himself, so please wait a couple weeks before exposing him to new places/people.

The Buyer also understands that , hereditary conditions or other conditions such as, but not limited to overbite, under-bite, stenotic nares (partially closed nostrils), elongated soft palate, entropion, loose hips, skin allergies, cherry eye, testicles not descended, hernias, patellar luxation, skin disorders, adult size, color, hair texture, accidental death or injury, hypoglycemia, coccidiosis, parasites, viral/bacterial infections, neglect, mishandling, or the suitability of breeding, etc. that do not affect the general good health of the puppy/dog are not covered under this warranty. We recommend that all Buyer should be knowledgeable and prepared to deal with the sometimes-complex health issues that are common in bulldog breeds.

If breeding rights were not purchased, and the bitch gets pregnant and was not spayed, buyer forfeits the pregnant bitch to The Bulldog Express without question. The buyer releases seller, The Bulldog Express, and their estate from any and all liabilities, and/or damages by fault of the dog after the time of sale. These damages include, but are not limited to, destruction of property and/or physical damages to any person(s). By signing this agreement/contract, the buyer agrees to everything stated in this contract in its entirety.
