# POWDER COATING

1. Applying durable long lasting finishes to many different items like castings, stampings, sheet metal components & more. We coat products made from materials such as steel, aluminum and more.

2. Hundreds of decorative & functional colors available in high gloss, low sheen and textured finishes. We apply interior, exterior and harsh environment powder coatings.

3. From prototypes to production runs we offer quick turn around times with our batch conveyor line capabilities able to process part sizes up to 5' Tall x 5' Wide x 15' Long.

4. We are a full service shop from pickup to pretreatment, application, light assembly, inspection and packaging services.

5. Delivering cost effective finishes and processes for your working requirements. Please give us a call with any questions or to set up a free finishing evaluation.

**We coat parts that other  
coaters won't**

**Prototypes, Short Runs,  
Full Production Capabilities**

Powder coated non-slip coatings

# CAPABILITIES

BCM is able to meet many automotive, military, and other industry standards. It is our goal to provide quality to all our customers whether it's one part or thousands. Our powder coating capabilities range from pretreatment, masking, application and packaging. We are able to process parts 5' T x 5' W x 15' L . We apply durable long lasting powder coated finishes to stampings, sheet metal components, castings and more. Coating steel, and aluminum made sub straights. With hundreds of colors available using our different powder suppliers we can apply the correct powder formulation that fits your spec or requirements.
