

BCBA Clinical Supervisor

CAREER OPPORTUNITY

COMPANY OVERVIEW

We are still growing during the pandemic and we would love to have you join us!

Have you recently earned your BCBA certification?
Are you an experienced BCBA looking for the next step in your career?
We are looking for motivated, like minded, professionals aspiring to grow in the field of Applied Behavior Analysis!

Our company strongly believes in providing ethical, effective ABA to individuals across the lifespan. Our clinical teams work collaboratively to inspire change, provide compassionate service, and hold each other accountable for progress. We believe in investing in our team to help reach our goals together. We offer flexible scheduling for work-life balance, supervision and support from our team of experienced BCBA's, professional development, continuing education opportunities, and generous benefit packages. If you are looking to continue your career in ABA with a privately owned, client focused organization, apply now. We are looking for to add to our team in Northern Santa Barbara County! We currently specialize in early intensive behavior intervention with children working in home, community, and clinic-based settings. This is a great time to join our rapidly growing team of ABA professionals!

MINIMUM REQUIREMENTS

- Two years of ABA experience
- Active BCBA certification
- Ability to repeatedly lift 35 pounds
- Ability to pass background/fingerprint clearance, health screenings, and provide/obtain immunizations including TB and drug testing
- Reliable transportation, proof of California driver's license, safe driving record, proper auto insurance, and vehicle registration

JOB DUTIES

Our BCBA Clinical Supervisors work collaboratively providing ABA services within our service model. Under the direction of your Clinical Director you will implement ABA programs, complete FBA's, Functional Analyses, provide parent training, develop programs, mentor and model for RBT's, and lead your own cases. You will be responsible for ensuring data collection is accurate, up to date, and data-based programming decisions are being made. You will be involved in leading professional development training, RBT training and supervision, and training future behavior analysts. All our supervisors are expected to be leaders in modeling best practices, accurate data collection, completing accurate and complete session notes, and supporting our team to ensure client programming progresses.

This position also includes opportunities to provide telehealth support to our growing team on the island of Oahu with the potential for travel in a post-COVID future.

If you are interested, please visit our website (www.holdsambeck.com) and submit an application and cover letter. Let us know what you are looking for in your next position, your top priorities in your career search, and what service areas you are interested in. We will reply to applicants that meet minimum requirements and who also submit their completed application and resume. Full job descriptions and requirements will be provided to applicants prior to in-person interviews.

BENEFITS PACKAGES AVAILABLE

This list is not inclusive of all benefits or considered part of the employment offer. It is intended as a sample. All benefits are individually negotiated based on position offered

- CEU Assistance
- Company sponsored health plans
- PTO
- Attendance to annual CCBS West Coast Autism Conference
