

I Love the Night

I love the night
Especially the quiet hours
When dreams come easily.

I live my life.
It breaks my heart sometimes
I try with all my might.
I love the night.

I know that you've been crying.
I can hear you in the dark.
Oh baby, please stop crying.
You're breaking my heart.

Oh please, don't be lonely.
There are others just like you.
One day you will find them
Or they'll find you.

Oh baby, please stop crying.
There are others who are lonely too.
Oh baby, please don't give up.

I've been hanging around for years
Just making faces at the world,
And, you know what I say?
I laugh at life.
That's right.
What else can you do?

I love the night
Especially the quiet hours
When dreams come easily.

I know that you've been hurting.
I know because I'm hurting too.
Hurting just like you.

There are others who are hurting too.
