Aviation

GE Aviation  
2040 E. Dyer Rd.  
Santa Ana, CA 92705

January 14, 2008

To Whom It May Concern:

Aerostealth Engineering, Inc. has been an approved vendor of CNC machining services for GE Aviation since 2006. To date, they have proved themselves as an excellent supplier by providing GE with quality parts, on time delivery and competitive pricing.

Aerostealth Engineering, Inc. is a reliable, professional and efficient company that will provide you with first rate services. Their effort, organization, efficiency, and willingness to do whatever it takes to meet our machining needs have helped us get back on track with our commitments to our customers.

Aerostealth Engineering, Inc. deserves serious consideration as a potential supplier, and I recommend them highly.

Sincerely,

A handwritten signature in blue ink that reads "Mike Weber".

Mike Weber,  
Materials Manager
