

WHEN YOU DANCE WITH ME

By John Lipinski

When you dance with me, I can feel your heart, it's beating rapidly
Looking deeply in your eyes, you know you can't disguise
The fever and intensity, it's what the music does to me
Emotions soon will rise, when you dance with me

There's magic when we kiss, holding you close like this
Whispering in your ear, the words I know you wanna hear
Slowly, you close your eyes, contentment, no surprise
My fingers begin to trace, the smile appearing on your face

When you dance with me, I embrace your touch, moving so close to me
Our bodies become one, the joining has begun
Sparks fly incessantly, it's what the music does to me
The passions soon will rise, when you dance with me

No one else in the room, the smell or your perfume
The sparkle from your eyes, cause me to fantasize
I tingle from your embrace, a mem'ry, I'll never erase
I'm standing on top of the world, for me there is no other girl

When you dance with me, I can feel your heart, it's beating rapidly
Looking deeply in your eyes, you know you can't disguise
The fever and intensity, it's what this music does to me
Emotions soon will rise, when you dance with me
