

## Corporate Profile for HIPAA Solutions, LC

HIPAA Solutions, LC (HSLC) has specialized in providing comprehensive HIPAA compliance resources including products and services since 2003. We have developed a national presence as a provider of quality compliance resources that are cost-effective and reliable. HSLC consultants and our product development team are able to offer senior level expertise in providing solutions for virtually any HIPAA compliance privacy or security project.

HSLC resources include:

- Privacy and Security Audits and Risk Assessments
- Strategic Consulting and Training
- Data Center and Co-location site consulting
- The innovative, web-based HIPAA ComplyPAK™ Compliance Management System

The HSLC client list includes:

- Healthcare Providers (Clinics, Hospitals, Independent Physicians Associations (IPAs))
- Specialty Healthcare (Telehealth / Staffing / Counseling / Home Healthcare)
- Insurance Companies
- Health Information Exchanges (HIEs)
- Business Associates and Health IT groups (U.S. and International)
- Drug and Medical Device Manufacturers
- Government entities (Hybrid Entities)
- Law firms
- Educational institutions

Our consultants have practical work experience in conducting privacy and security audits; assisting with strategic planning on compliance issues for business processes and technology security; providing outsourced Privacy Officer services; conducting training on privacy and security; and assisting clients with health IT application development.

HSLC consultants have served as HIPAA “Subject Matter Experts” (SMEs) for publications such as Computerworld™ and the American Medical Association and have been appointed as HIPAA Privacy and Security SMEs to multiple state compliance planning committees for Health IT.

HSLC training and education resources include automation of training provided by the HIPAA ComplyPAK™ as well as participation in seminars coordinated by organizations such as Microsoft™, the American Health Information Management Association, the Virginia Hospital Association, and the Texas Hospital Association.
