

# Tethered Files Information

## What is Tethered?

The Tethered USB Drive was created specifically to give you a “Left Behind kit” to be able to give to those people you love to help them to know what to do if they get left behind when Jesus comes to take His Bride home prior to the Tribulation.

## What Data is on the USB?

The USB Drive contains Messages from Jesus for those left behind explaining what to do at that time. It includes Mother Clare’s books, Faith building Proofs, Movies, and Music both Std quality and HD quality.

## What options do I have for downloading the files?

We have prepared it so that you can download the entire collection, which is over 14 Gigabytes, and put it on a 16GB flash Drive, or you can download each separate category to build your own Library for those you are concerned about. On the Tethered page, it shows you how big each download will be.
