Hi Guys

My wife and I put a addition on our home in the fall of 1987. At that time we turned a little closet (4ft by 3ft) and built in enough racks to hole 160 bottles. I installed a Breezaire WK1060 at that time. Well today I hade to replace it but I am very pleased with its long run. We had it for 28 years and it worked great. The long and short of it is it cost us about \$25 bucks a year to keep our wine in great condition. Fantastic product.

Best Regards
