The Stogan Group Opens Residential Real Estate Division in Chico, CA

(Chico, CA) The Stogan Group, a Chico based agricultural real estate and consulting firm, is excited to announce the opening of its Residential Real Estate division.

As a Chico native, Ryan Gulbrandsen brings his unique knowledge of Butte County and strong network of support to The Stogan Group's Residential Real Estate Division. On his move to The Stogan Group, Gulbrandsen said, "After spending my whole life in Chico, becoming a Realtor was a natural step because I know what makes our community such a great place to live."

"We are both honored and excited for Ryan to join our team," said Logan Wilson and Stuart Hoetger, owners of The Stogan Group. "We have focused our business on agriculture, but with the addition of Ryan and his expertise in the Chico market, we are confident his reputation and integrity will speak for itself in all of his residential real estate dealings."

Gulbrandsen comes to TSG with a BA in Psychology from CSU, Chico. Ryan is passionate about helping the youth in our community, and is responsible for coordinating multiple youth programs such as the Athlete Committed Program, the Butte Youth Now Coalition, and works with youth to address problems with underage drinking and drug use in Butte County.

Combining Gulbrandsen's extensive knowledge of the Chico area with TSG's internal data and industry analysis, Gulbrandsen is positioned to help families buy or sell a home, or assist investors in finding the highest ROI's for income generating properties.

The Stogan Group specializes in analysis and economic forecasting for the real estate and commodity markets. TSG is a real estate and commodity brokerage, and provides managerial and consulting services to agricultural businesses and industry associations domestically and abroad.
