

2024 HYDRO RECORD BOOK AND STATISTICS

**PUBLISHED BY THE
UNLIMITED NEWSJOURNAL**

WHAT'S ON THE COVER?

(1) Although he "sold" his boat to his crew for \$1 before the 1957 season, Edgar Kaiser was still widely recognized as the owner of *Hawaii Kai III* when it won the national championship that year, then broke the world's speed record, and won the Gold Cup the following year. ...

(2) Jonathan Wainwright drove *Chip II* to victory in the 1906 and 1907 Gold Cup races. ... (3) This boat campaigned as *Notre Dame* from 1964 to 1966 and was driven by Bill Muncey and Rex Manchester. ... (4) Andrew Tate currently ranks fifth all-time in the percentage of races won vs. races entered. ... (5) Kaye Don piloted *Miss England II* in the 1931 Harmsworth challenge against Gar Wood, won the first contest, but became the victim of a so-called "Yankee Trick" in the second race. He also set two world speed records in the boat that year. ... (6) Lord Charles Cheers Wakefield, one of the richest men in Great Britain during the 1920s and '30s, entered boat racing with his *Miss England* in 1929. ... (7) Bob Hayward won

the Harmsworth Trophy for Canada three times when he drove *Miss Supertest III* to victory in the event in 1959, 1960, and 1961. It was the last time an Unlimited-class boat won the Harmsworth. ... (8) Col. Jesse Vincent was the chief engineer for the Packard Motor Car Company after World War I and drove his *Packard Chriscraft* to victory in the 1922 Gold Cup. Caleb Bragg drove Vincent's boat to a second-straight Gold Cup the following year. ... (9) In 1985, Chip Hanauer drove *Miller American* to victory in five races, including the Gold Cup, and won that season's national championship. ... (10) Stanley Dollar was the winner of the 1952 Gold Cup while at the controls of *Slo-mo-shun IV*. ... (11) Hull #0706, which first saw action in 2007 as *Oh Boy! Oberto*, has won a total of 25 races during its career and is third on the list of all-time most successful boats in history. The boat raced last season as *Miss Goodman Real Estate*. ... (12) During his long career as a driver, Fred Alter entered competition in 21 different boats—a total that is the most for any driver in the sport's modern history. ... (13) *Miss Pepsi* won the national championship in 1951 and 1952 with Chuck Thompson driving. ... (14) Russ Schlee won the national title while driving *Shanty I* in 1956. ... (15) This boat won two consecutive Gold Cups five years apart and with two different names. It claimed the trophy in 1940 as *My Sin* and with Zalmon Simmons at the wheel, World War II then stopped all racing, and after competition resumed in 1946, it won the Gold Cup again with Guy Lombardo driving and with the name *Tempo VI* on its side. ... (16) Last season's national champion and the winner of last year's Gold Cup was *Beacon Electric* with J. Michael Kelly driving.

Records vs. Statistics A record is an achievement that is officially recognized. In almost all cases, the driver or owner will receive a trophy or certificate indicating that the race has been won or a record has been established. A statistic is an unofficial achievement. The statistical rankings included in this publication were developed through the analysis of heat results and other statistical data.

What is a race? The information in this Record Book includes the results of all "official races" that took place since 1922, which is when the Gold Cup class was established. It also includes Gold Cup races and some Harmsworth races that were held previous to 1922. To be counted among the 710 official races listed here, an event must meet two conditions: 1) at least three starters of the Unlimited-class, Gold Cup-class, the 725-class in Mississippi Valley Power Boat Association events, or equivalent; and 2) at least two heats of racing. The results of free-for-all events, for example, which were just one heat and were common during the years before World War II, are not counted in these records. Many exhibition races included several limited-class boats but only one or two Gold Cup-class boats and also wouldn't be counted in these records.

Who's the driver? In the case where more than one person handled the steering wheel during an event that ended up being a victory for that boat, the person who drove the boat in the event's last heat is given credit for the win.

What is a race team? An individual boat earns a different set of performance statistics for each of its owners. For example, if a boat is owned by three different people during its career, it would have been part of three different race teams and would accumulate three separate sets of performance results.
