DESCRIPTION: This is a nice looking partially re-finished Indian Apache hunting bow from the mid 1960's. Attractive Zebrawood riser; comfortable pistol grip; Bow has no delamination; no cracks; limbs are straight. Overlays and tips are in great condition. One of the tip overlays was missing, so I added a new one (see pics on last post). They looks similar but not identical. No drilled holes; No chips, dings or cracks. No stress lines or crazing. A few minor scratches and nicks here and there. Decal is a reproduction. Overall, this is a really nice bow in excellent condition for its age. This is a longer bow with a heavier draw weight. If you have a longer draw length and are looking for a heavier weight hunting or target bow, this one would be a good choice. Comes with a new shelf rest and side plate and serviceable string.
