

RC Merry Garrett

Good evening on 10/11/2020. Yes, I almost forgot to do a newsletter. Lots going on in life right now. Wanted to thank Jerry and Bea for the best Halloween party ever. We had a blast we had food we had a meeting and a great awesome group of people. We dressed up and even had a rather gorgeous woman there to hug us tight. We even decorated our campsites. Jerry and Rob put together another great ride around the area of Bay City. Cool beans guys

We are discussing a lot that is happening right now. I went to the freedom rally for the very first time and learned a lot. We even had a guest that was not invited. But I understand that won't happen again. Other members joined the rally for a day of freedom and speeches. SB528 needs to be accomplished immediately

We had a board meeting and RC meeting on October 10 and the officers again put on a informative get together for the RC. Hope you were there. Please join the Abate of Michigan RC page on FB to keep up with new info and events. This site is only for RCs. Share your events and worries. It's what its there for. If we work together as a whole, it will help all of us. We have some new RCs coming into our ranks and need the input that our old brains have collected over these long years

The board meeting discussed the bike raffle which ended up being so much better than we could have hoped for. Our top seller for our region was Jerry Soto. That man rocked it out. Kept coming back for more tickets. I'm so proud of the whole region for working their tails off to make region 6 look awesome!!!!

The seminar is being planned and the event should be a top-notch state event with many breakout sessions. Some new some important but most of all needed. We have had a very rough year and I'm hoping the end is in sight.

Field meet is of course in the works also. More info on that as we get closer and closer. But let me just say Pam cracks the whip and her committees are taking notes. Lol not really Pam but you really are a hard ass worker

Vince, Jim, Dondi and everyone on the legal committee are as always working very hard but it seems we have to work even harder. We have letters to send we have emails to make we have FB to get on so let us know if you need more info it will get to you ASAP

MRF had the Meeting of the Minds and Michigan is still shining and working hard. We have a rep for them in our region. Jeremy will be glad to sign you up. Without MRF on the national level it will trickle down to the state level. That means Abate folks. Region 6 just renewed our region for another year. Call Jinx everyone and get the info for that. The fees are in the rider every month. Just read every single page and you will find it.

Our riding season is slowing down so please be even more cautious as they still are not seeing us. Maybe we should start a group to make distracted drivers know we are watching them and will be going to bat for every rider in the state. Oh, if we only could make that happen.

Since it's getting to be a little cold outside yikes, I hate that word maybe you can go to another regions meeting or fall event. Maybe even their Christmas party. I know our region loves to have guests especially when they surprise us.

So, till next time ride with the wind on your cheeks the sun on your head and your hair a tangled mess.

Peace

Merry
