The Greater London geographic area is patterned after the Pleiadian Cydonia, Mars pyramid complex. This pattern or 'stamp' is the signature of the Fallen Angels in rebellion against YHWH. These Fallen Angels and Lucifer know the dimensions of Heaven as the Bible depicts to some degree that there are buildings, a City, a Throne, gates, etc. Perhaps some of the Fallen Angels that came to Earth or were stationed on Earth had a direct association to the Pleiades. The Pyramid pattern could be one that is mirrored from Heaven itself. In the Book of Enki, Ala-Lu is the King of Nibiru, the Planet of the Crossing that is banished and end up on Earth, he is later exiled to Mars where he builds a city and is commemorated by a Face of his likeness. The Cydonia Pyramid Complex is mathematically sound with angles and degrees that match those found all over the Earth, as in Greater London. The key clue is the 333° heading from the Royal Observatory. With this benchmark corresponding to the D&M Pyramid the pattern matches with the Bank of England with its Financial Tower to those of the Pyramid City. The Olympic Stadium corresponds to the Face of Ala-Lu. Coincidentally, there is a 'eye' pavilion next to the stadium that has it architecture in a pyramid lighting desiring of the All-Seeing Eye of Lucifer. In essence, the 2012 Olympics was homage to the return of Lucifer as the Rising Phoenix or Mercury, the Monas Hieroglyphica that was the Mascot.
