Youth Mentoring

Live LIFE Mentoring was developed in 2014 to address the issues of youth in the Camden and Campbelltown areas. The goal of the program is to assist young people with skills to gain employment and overcome barriers that restrict them from achieving success.

Each Mentee will be involved in 13 Mentoring Sessions over a 6 month period with a Local Mentor.

Each young person will work on Goals and Motivation, Mental health, Employment skills, Anger management, Communication, Education and Future aspirations.

The **Live LIFE** Program is a local initiative, which is privately funded by Corporate Sponsors within South West Sydney, to build youth development and employment.
