**DON LONGO**  
INVESTIGATIONS & CONSULTING

**How to Best Survive an Active Shooter Incident** – Techniques and tactics to survive an Active Shooter Incident. Active Shooter Incidents are on the rise and can occur anywhere. Whether at the workplace, a school, a mall, a movie theater, or any public place, preparedness is the key to survival. The lecture provides instruction on how to prepare for and survive such an incident. Presentations are available in formats for either facility staff or the general public.

**Anti-Crime Travel Safety and Personal Protection Techniques & Tactics for Travel Abroad** – Instruction on how to best avoid becoming the victim of violent crime when traveling abroad, and how to safely and effectively respond should an incident occur. The presentation includes tips on lowering one's target profile factor, utilizing situational awareness and employing effective reactive techniques. This course is a variation of the training required of all U.S. government officials and employees prior to posting to an overseas assignment. The information and techniques presented are invaluable for all travelers over the age of sixteen years.

**Verbal Judo Conflict Management** – Originally designed to teach police officers how to defuse potentially violent situations, this course is valuable for people in all walks of life. The course enables one to use language and presence to calm difficult people and situations, redirect behavior of others, and achieve the desired outcome of any verbal exchange or conversation. It has proved to be invaluable when interacting with others in business, socially, or in the home.

**Anti-Crime Techniques and Tactics** – This basic anti-crime presentation provides simple but effective techniques to help you and your family avoid being victims of violent crime. Topics include Employing Situational Awareness, Becoming a Hard Target, and Safe and Effective Reactive Techniques. The lecture is designed to offer anti-crime and response/survival techniques and includes demonstrations of reactive and protective tactics.

**Senior Scams: Avoiding Becoming a Victim of Scams That Target Seniors** – This program explores a number of scams and confidence games that are routinely used to target senior citizens. Information shows how to recognize, avoid, and respond to these scams.

## **The Real Truth Behind the Tragedy of the Columbine High School Incident & How it Could Have Been Prevented**

Up to 85% of the general public do not know the true facts associated with the Columbine massacre. In addition to revealing the real motive behind the massacre, and discussing what really happened at Columbine High School, this lecture reveals how the tragedy could have been prevented. The presentation also provides key information for parents, teachers, and others regarding important warning signs in children, and the proper responses to avoid incidents such as those that occurred at Columbine and at Sandy Hook Elementary School.

Presentations at venues such as schools, public libraries, halls, associations, clubs and not-for-profit organizations can be tailored to time frames between ninety minutes and two hours. Lectures at corporate and government venues and colleges are designed for three hours.
