

HOME LEARNING

Year 1

Hello Year 1, we hope you and your families are all well and safe. We are missing you all and look forward to when we can see you next. We hope you all enjoyed your Easter break and didn't eat too much chocolate! The weather has been lovely and we hope you have been able to get out and enjoy some fresh air as much as possible. Mrs Houghton has been enjoying her daily walks with her dog Cooper and Mrs Fuller has loved going for bike rides with her family. Miss Richards has been walking to Upton Country Park and discovering new trails and Miss McIntyre has been busy preparing for her first year as a qualified teacher.

We look forward to hearing what you have all been up to and receiving some messages from you, here are our school email addresses:

lisa.richards@hoppinghill.northants.sch.uk

gemma.fuller@hoppinghill.northants.sch.uk

becky.carter@hoppinghill.northants.sch.uk

You could let us know what you've been up to at home, share pictures of your wonderful work or just to say hello!

Stay safe and well,

Miss Richards, Mrs Fuller & Mrs Houghton

Week 20.4.2020

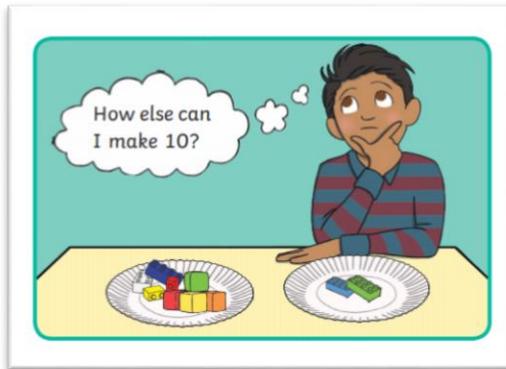

Here are some learning activities for you to try at home. Have fun!

Maths

We are going to look at our number bonds this week.

First check that your child is confident with bonds to ten by playing game:

- Find ten small objects and two plates.
- Grab some of the objects and put them on one of the plates.
- Then, take the rest of the objects and put them on the other plate.
- Count how many there are on each plate.
- What number bond did you find?
- Try the game again. What other number bonds can you find?

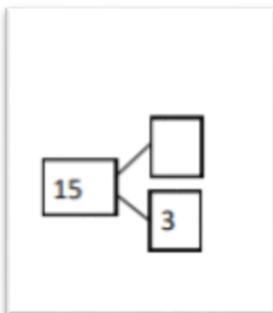

How to Get Your Child Thinking

- How many do we have altogether?
- How many on this plate?
- How many on the other plate?
- What number bond did we find?
- How could we rearrange them to find another way of making ten?
- If there were zero objects on this plate, how many would be on that plate?
- Can you find another way of making ten?
- I can see that there are four on this plate. If I hide the other plate, can you tell me how many are on it?

Once your child is confident with bonds to 10, can you play the same game to 20? Can your child show you how to write a part, part whole for the number sentence?

Challenge: Write a part, part whole or a number sentence with a missing number. Can they find the missing part?

$$20 = \underline{\quad\quad} + 2$$

[Don't forget that the White Rose Hub and BBC Bitesize are offering daily maths lessons for year 1's!](#)

English

Writing

Think about last week.

Write five sentences about last week and draw a picture to go with it.

What did you do last week?

What did you play?

Who did you see?

Remember to start sentences with a capital letter and to include finger spaces.

Grammar

We have been learning about past tense. Can you write sentences using the following past tense verbs:

went sat played ate shouted

Example: I ate a delicious chocolate cake.

Reading

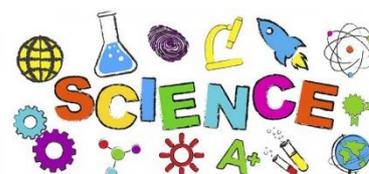

Can you choose a book from home or a book from one of the online learning platforms (see links below)

Tell me 3 things that happen in the story.

You can either think, talk or write about the questions

1. Who is the author?
2. What was your favourite part of the story and why?
3. Who is your favourite character and why?

Science

Can you spot any plants beginning to appear outdoors?

I wonder what a plant needs to grow?

Can you sketch/draw a flower or plant and label some of the parts? (There are some great clips on

BBC Bitesize to help you)

You could even try to grow something of your own- we would love to see what you come up with!

History/Geography

On the 22nd April 2020 is Earth Day. We thought it would be nice if Year 1's could take on the challenge of doing something positive for the environment. There are many things that we could do to help our planet for example could you try and recycle some more of your rubbish? Perhaps you could remind your family members to turn off things they are not using.

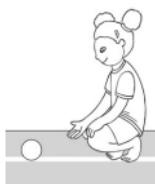

PE

This week can you try some throwing and catching activities at home.

Try rolling objects in different directions along the ground. Crouch down and bend your knees.

Watch where you want the object to go and give it a gentle shove from behind.

Can you keep up with your object?

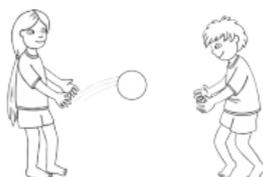

Practise bouncing a ball on the ground. Bend your knees, watch the ball and use two hands to catch it or push it back down.

Practise throwing and catching with a partner. Aim for their stomach when you throw.

Stand close together and move further away as your throwing and catching becomes more accurate.

Practise catching.

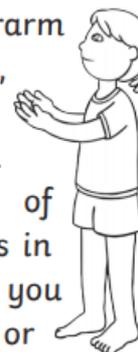

You could try different size balls, screwed-up paper, scarves, soft toys etc. Keep your eye on the ball and have your hands cupped together to catch. How high can you throw the ball and still catch it?

Practise throwing overarm. Try throwing different objects at a target or a wall. Face the target and bend your elbow. Bring the ball back to your shoulder and release it with a push.

Practise throwing ○ different objects at a target using an underarm sling. Face the target, bring your arm back to your waist and then forward. Let go of your object as it comes in front of you. Which do you find easier: overarm or underarm?

Personal Challenge: Can you see how many times you can throw the ball in the air without dropping it? Practise every day to see if you can beat your personal best!

Computing

During our time in year 1 we have been learning all about internet safety.

We have been using www.Safesearchkids.com to safely look for images and paste them into a word document. Could you search for a picture of something that you are interested in and paste it into a word document? For example, you may want to search for your favourite animal, food or film! You may even want to write a sentence about your picture. Please feel free to share your work with us via email if you wish. We would love to see!

Phonics and Spelling

Practise each word by rewriting it 3 times. Say it aloud as you write it.

Monday Friday Tuesday Saturday Wednesday Sunday Thursday

Can you make the words using something different? Try using a whiteboard/tablet, sand or twigs.

Practise writing the spelling words in your neatest handwriting. Remember to begin with a capital letter.

Can you look at the sounds:

ay **ou** **ie**
(play) (shout) (tie)

Can you write as many words as you can using those sounds? Can you pick one word and write them in a sentence? How many of the sounds can you spot in your books?

Fun activities and challenges

Can you make your name using loose parts?

Online Resources

Maths

White Rose Maths	Weekly videos and worksheets to use during school closures. No account needed
Topmarks	Fantastic website with lots of interactive games. We love 'Hit the Button' for maths number bonds, addition and subtraction
ICT games	Lots of online games
Cbeebies - numberblocks	Quite simple videos, but some focus on number bonds (access on BBC iPlayer, YouTube or Cbeebies).
Snappy Maths	Lots of free worksheets

Reading

Bug Club	Use your child's login
Oxford Owl	Advice and support for parents Educational activities and games Free eBook library for 3-11 year olds
Vooks	Free 30 day trials (don't forget to cancel at the end or they may charge)
Twinkl	Free resources using code PARENTTWINKLHELPS, including E-Books
Epic Books	Free E-Books
Book Trust	Online go to 'Storybooks and games'
Oliver Jeffers	Type in Stay at home story time with Oliver Jeffers. Every weekday at 6pm
Alphablocks	Youtube links or Cbeebies
BBC bedtime stories	BBC iPlayer or Youtube

Phonics

Phonics Play	Login: march20 home
Letters and Sounds	Free games and resources
Teach your Monster to read	Website free, paid app
Phonics Bloom	Phonics games
Geraldine Giraffe	Youtube videos to teach sounds

PE

Joe Wicks- The Body Coach	Youtube channel
GoNoodle	Youtube channel
Cosmic Kids	Youtube channel
Zumba Kids	Youtube channel
REAL P.E	Website
