Richwood, Ohio 43344
Mosquito

Mosquito Fogging

The Public Works Department has deployed a Clark Cougar Mosquito fogger to combat the little pests. This machine allows us to fog the entire village in just about 3 ½ - 4 hours.

Even though the actual fog is not harmful to individuals, we ask that you please keep your children away from the sprayer.

Residents can help control the mosquito population around your homes and property by:

- Eliminating standing or stagnate water
- Disposing of any tires, buckets, etc.
- Keeping fresh water in birdbath
- Cleaning our rain gutters

Any of these places are ideal for Mosquitos!!!

Anyone with questions about mosquito spraying, please contact Service Works Supervisor Kerm Fraizer between the hours of 8am and 4pm Monday-Friday.
