### Vineyard and Terroir

- **Location:** The wine is made from young Beaucastel vines (under 20 years old) and two neighboring vineyards: one south-west facing Syrah vineyard from the Clos de Châteauneuf-du-Pape, and another at Le Grès, 4 km from Beaucastel.
- **Soil Type:** Miocene marine deposits covered with alpine diluvium (rounded pebbles), with one parcel on Urgonian limestone. This contributes to the wine's complexity and minerality.
- **Viticulture Practices:** Sustainable and organic farming methods are employed to ensure minimal environmental impact.

## Winemaking

- **Harvest:** Maturity checks begin in August, and grapes are tasted regularly to determine the optimum harvest date. Each variety is harvested separately.
- **Vinification:** The Syrah is partially vinified in whole clusters, and the remainder, along with the Grenache, is destemmed. Fermentation takes place in wooden and stainless-steel vats using the same methods as Château de Beaucastel wines. The wines are then blended and aged in foudres for 2 years.

## Tasting Notes

- **Aroma:** A complex and warm aromatic bouquet with notes of leather.
- **Palate:** Elegant with delicious aromas of dried fruit, dates, dried figs, and candied grapes.
- **Finish:** Long and refined.
- **Ageing Potential:** Can be enjoyed now but will evolve beautifully over 5 to 10 years.

## Food Pairing

- **Recommended Pairings:** Perfect with with game and truffle or mushroom-based dishes.

## Sustainable Practices and Certifications
