

Save Our Papatūānuku

Papatūānuku, the guardian of life.
Always there when in strife.
The protector, the guider,
The one provider.
She will be there wherever you go,
Even in your darkest shadow.
The sky is always clouded with her warm embrace.
One species lives on, the human race.
She gifts to the land, the earth and the sea.
Her kindness and blessings are the key.
By killing the land, we kill Mother Earth,
Papatūānuku unaware of the chaos that gave birth.
The path to peace and a green world is long.
Although, together we stand and will always be strong.
Papatūānuku unites us with her call.
She's our Mother Earth, after all.
