

Discover Science Center's 2018 SciTech Summer Program Recommendation Request Form

PARENTS: Use this form to request a recommendation for your child's application for acceptance into Discover Science Center's 2018 SciTech Summer Program. Please fill out the following information and send to an educator who can attest to your child's motivation, interest in science and classroom behavior. Only one recommendation is required; however, additional recommendations will be considered.

Student's Name

Student's School/Homeschooled

Student's Grade Level for the 2018-19 School Year

EDUCATOR: The student above has requested a recommendation from you for their application into Discover Science Center's 2018 SciTech Summer Program.

- This program is an opportunity for motivated middle school students interested in science and technology to take part in higher-level hands-on STEM experiences and training (<http://www.discoversciencecenter.com/scitech-summer-program.html>).
- Rising 6th, 7th and 8th graders (ages 11-14) with a strong interest in any area of science and the use of technology to advance scientific education and research can apply for the SciTech Program.
- Acceptance into this program is based largely on recommendations provided by one or more teachers/mentors/individuals who can attest to a child's interest in science, motivation and classroom behavior.
- Acceptance in this program is not restricted to gifted and talented students.
- Academic scores are not used in our evaluation process, however, student behavior will be heavily considered due to the nature of the laboratory setting and materials used in this program. We really want to include students that love science (even if they are not the top academic performers in their class), and are well-behaved in the classroom.
- These recommendations are held in strict confidence and never released to the parents, so please be honest with your evaluation.
- Online recommendations are found here: <http://www.discoversciencecenter.com/scitech-program-recommendation-form.html>
- Online recommendation submissions must be received **before 5pm on Friday, April 13, 2018.**
- Please contact Tonya with any issues or questions regarding recommendation for this student. 770 641-9336 or tonya@discoversciencecenter.com

Thank you for your time and consideration in submitting this recommendation.
