

1. Identification	
Product identifier	
Product name	BELLACIDE 355
Chemical name	Aqueous solution of tributyl tetradecyl phosphonium chloride.
Product number	100736,100737,100833
Product Registration No.	EPA Reg. No. 83451-16
Recommended use of the che	emical and restrictions on use
Application	Industrial Water Treatment
Details of the supplier of the s	safety data sheet
Supplier	BWA Water Additives US LLC 1979 Lakeside Parkway Suite 925, Tucker, GA30084 USA
	T: +1 800 600 4523 T: +1 678 802 3050
	E: msds@wateradditives.com
Emergency telephone numbe	_
Emergency telephone	Chemtrec Phone: 1-800-424-9300
2. Hazard(s) identification	
Classification of the substanc	e or mixture
Physical hazards	Not Classified
Health hazards	Acute Tox. 3 - H331 Skin Corr. 1B - H314 Eye Dam. 1 - H318
Environmental hazards	Aquatic Acute 1 - H400 Aquatic Chronic 1 - H410
Label elements Pictogram	
Signal word	Danger
Hazard statements	H314 Causes severe skin burns and eye damage. H331 Toxic if inhaled. H410 Very toxic to aquatic life with long lasting effects.

Precautionary statements	P260 Do not breathe vapor/spray.
	P261 Avoid breathing vapor/spray.
	P264 Wash contaminated skin thoroughly after handling.
	P271 Use only outdoors or in a well-ventilated area.
	P273 Avoid release to the environment.
	P280 Wear protective gloves/protective clothing/eye protection/face protection.
	P301+P330+P331 If swallowed: Rinse mouth. Do NOT induce vomiting.
	P303+P361+P353 If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
	P304+P340 If inhaled: Remove person to fresh air and keep comfortable for breathing.
	P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact
	lenses, if present and easy to do. Continue rinsing.
	P310 Immediately call a poison center/doctor.
	P311 Call a poison center/doctor.
	P321 Specific treatment (see medical advice on this label).
	P363 Wash contaminated clothing before reuse.
	P391 Collect spillage.
	P403+P233 Store in a well-ventilated place. Keep container tightly closed.
	P405 Store locked up.
	P501 Dispose of contents/container in accordance with national regulations.
Contains	TRIBUTYLTETRADECYL PHOSPHONIUM CHLORIDE
WHMIS Label	D1 Materials Causing Immediate and Serious Toxic Effect. E Corrosive Material.

3. Composition/information on ingredients

Mixtures

TRIBUTYLTETRADECYL P	PHOSPHONIUM CHLORIDE 5.0
CAS number: 81741-28-8	
M factor (Acute) = 10	M factor (Chronic) = 10
Classification	
Acute Tox. 4 - H302	
Acute Tox. 2 - H330	
Skin Corr. 1B - H314	
Eye Dam. 1 - H318	
Aquatic Acute 1 - H400	
Aquatic Chronic 1 - H410	
The Full Text for all Hazard Statements are Displayed in Section 16.	
Composition comments	Aqueous solution of tributyltetradecylphosphonium chloride.
4. First-aid measures	
Description of first aid measures	
Inhalation	Remove affected person from source of contamination. Move affected person to fresh air a keep warm and at rest in a position comfortable for breathing. For breathing difficulties, oxygen may be necessary. Get medical attention if any discomfort continues.
Ingestion	Never give anything by mouth to an unconscious person. Do not induce vomiting. Do not induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Rinse mouth thoroughly with water. Get medical attention if any discomfort continues.

Skin Contact	Remove affected person from source of contamination. Immediately remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical attention if any discomfort continues.		
Eye contact	Remove affected person from source of contamination. Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Get medical attention promptly if symptoms occur after washing.		
Most important symptoms and	Most important symptoms and effects, both acute and delayed		
Inhalation	Severe irritation of nose and throat. Congestion of the lungs may occur, producing severe shortness of breath.		
Ingestion	May cause chemical burns in mouth and throat. May cause stomach pain or vomiting.		
Skin contact	Chemical burns.		
Eye contact	May cause blurred vision and serious eye damage.		
Indication of immediate medic	al attention and special treatment needed		
Notes for the doctor	Probable mucosal damage may contraindicate the use of gastric lavage.		
5.Fire-fighting measures			
Extinguishing media			
Suitable extinguishing media	The product is not flammable. Extinguish with the following media: Carbon dioxide (CO2). Foam. Dry chemicals, sand, dolomite etc. Water spray, fog or mist.		
Special hazards arising from t	Special hazards arising from the substance or mixture		
Specific hazards	Fire creates: Toxic gases/vapors/fumes of: Carbon monoxide (CO). Carbon dioxide (CO2). Oxides of the following substances: Phosphorus. Chlorine. No unusual fire or explosion hazards noted.		
Advice for firefighters			
Protective actions during firefighting	Move containers from fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. Control run-off water by containing and keeping it out of sewers and watercourses.		
Special protective equipment for firefighters	Leave danger zone immediately. Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.		
6. Accidental release measure	6. Accidental release measures		
Personal precautions, protecti	ve equipment and emergency procedures		
Personal precautions	Follow precautions for safe handling described in this safety data sheet. For personal protection, see Section 8.		
Environmental precautions			
Environmental precautions	Avoid release to the environment. To prevent release, place container with damaged side up.		
Methods and material for cont	ainment and cleaning up		
Methods for cleaning up	Avoid the spillage or runoff entering drains, sewers or watercourses. Absorb in vermiculite, dry sand or earth and place into containers. Collect spillage for reclamation or disposal in sealed containers via a licensed waste contractor. Containers with collected spillage must be properly labeled with correct contents and hazard symbol.		
Reference to other sections	For waste disposal, see section 13.		
7. Handling and storage			

Precautions for safe handlin	<u>Ig</u>
Jsage precautions	Avoid spilling. Avoid contact with skin and eyes. Avoid inhalation of vapors and spray/mists. Good personal hygiene procedures should be implemented.
Conditions for safe storage,	including any incompatibilities
Storage precautions	Store in tightly-closed, original container in a dry, cool and well-ventilated place. Store at temperatures not exceeding «Value in °C»°C/«Value in °F»°F. Do not store for extended periods below freezing point or in direct sunlight. IF FROZEN: once fully thawed, agitate container vigorously to ensure the product is homogeneous. Store away from the following materials: Alkalis. Reducing agents. Keep separate from food, feedstuffs, fertilizers and other sensitive material.
Storage class	Corrosive storage.
Specific end uses(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.
3. Exposure Controls/perso	nal protection
ngredient comments	No exposure limits known for ingredient(s).
Exposure controls	
Protective equipment	
Appropriate engineering controls	Avoid inhalation of vapors. Observe any occupational exposure limits for the product or ingredients. Provide adequate ventilation.
Eye/face protection	Wear protective eye wear (goggles or face mask). Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. The following protection should be worn: Full face visor or shield.
Hand protection	Wear protective gloves made of the following material: Selection of a suitable glove depends on work conditions and whether the product is present on its own or in combination with other substances. Neoprene. Nitrile rubber. Polyethylene. Polyvinyl chloride (PVC). It should be noted that liquid may penetrate the gloves. Frequent changes are recommended.
Other skin and body protection	When handling the product to prevent skin contact by splashing, wear a rubber apron.
Hygiene measures	Provide eyewash station. Wash promptly if skin becomes contaminated. Promptly remove any clothing that becomes contaminated.
Respiratory protection	If ventilation is inadequate, suitable respiratory protection must be worn. If exposure to spray, mist or vapours is possible wear respirator face mask with appropriate cartridge. A respiratory protection programme that meets OSHA 1910.134 and ANZI Z88.2 requirements must be followed whenever work place conditions warrent a respirator's use.

Information on basic physical and chemical properties

Appearance	Liquid.
Color	Colorless.
Odor	Slight.

Odor threshold	Not available. Not available.
рН	pH (concentrated solution): 6 - 8
Melting point	Not available.
Initial boiling point and range	100 @°C @ 760 mm Hg
Freezing Point	-8 to -10 °C / 14 to 17 °F
Flash point	Not available.
Evaporation rate	Not available.
Evaporation factor	Not available.
Upper/lower flammability or explosive limits	Not applicable.
Vapour pressure	Not available.
Vapour density	Not available.
Relative density	0.96 - 1.00 @ 20°C
Partition coefficient	Not available.
Auto-ignition temperature	Not available.
Explosive properties	Scientifically unjustified.
Oxidising properties	Does not meet the criteria for classification as oxidizing.
Other information	Not available.
10. Stability and reactivity	
10. Stability and reactivity Reactivity	There are no known reactivity hazards associated with this product.
	There are no known reactivity hazards associated with this product. Stable at normal ambient temperatures and when used as recommended.
Reactivity	
Reactivity Stability Possibility of hazardous	Stable at normal ambient temperatures and when used as recommended.
Reactivity Stability Possibility of hazardous reactions	Stable at normal ambient temperatures and when used as recommended. Will not polymerize.
Reactivity Stability Possibility of hazardous reactions Conditions to avoid	Stable at normal ambient temperatures and when used as recommended. Will not polymerize. Avoid excessive heat for prolonged periods of time.
Reactivity Stability Possibility of hazardous reactions Conditions to avoid Materials to avoid Hazardous decomposition	Stable at normal ambient temperatures and when used as recommended. Will not polymerize. Avoid excessive heat for prolonged periods of time. Strong alkalis. Strong reducing agents. Fire creates: Toxic gases/vapors/fumes of: Carbon monoxide (CO). Carbon dioxide (CO2).

Results of PBT and vPvB assessment

Results of PDT and VPVD asse	ssment
Results of PBT and vPvB assessment	This substance is not classified as PBT or vPvB according to current EU criteria.
Other adverse effects	
Other adverse effects	Not available.
13. Disposal considerations	
Waste treatment methods	
General information	When handling waste, the safety precautions applying to handling of the product should be considered. Triple rinse drums prior to recycling or disposal.
Disposal methods	Absorb in vermiculite, dry sand or earth and place into containers. Dispose of waste via a licensed waste disposal contractor. Liquid material should be incinerated. Material absorbed onto sand or earth should be disposed of as solid waste in accordance with local regulations. Empty packaging may contain product residues and due consideration should be given prior to disposal.

15. Regulatory information		
Regulatory Status	This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label: DANGER Avoid contact with eyes, skin and clothing.	
Regulatory References	SECTION 313: This product does not contain toxic chemical subject to the reporting requirements of Section 313 of Title III of the Superfund Amendment and Reauthorization Act of 1986 and 40 CFR Part 372. PROPOSITION 65: This product does not contain chemicals considered by the State of California's Safe Drinking Water and Toxic Enforcement Act of 1986 as causing cancer or reproductive toxicity and for which warnings are now required. TSCA: The ingredients of this product are on the TSCA Inventory. 29 CFR 1910.1010 Federal Regulations (OSHA Standard). This Product is Hazardous under the OSHA Hazard Communication Standard.

For safety reasons it is IMPERATIVE that customers:-

1. Ensure that all those within their control who use the products are supplied with all relevant information contained within the Safety Data Sheet and Technical Bulletin concerning the applications for which the product is designed and any instructions and warnings contained therein.

2. Consult BWA Water Additives before using or supplying the product for any other applications. The information contained herein is based on the present state of our knowledge and is intended to describe our products from the point of view of safety requirements. It should not therefore be construed as guaranteeing specific properties.
