Subject: Customer Information Request

Paw Rt. 19 Public Service District is asking for your assistance with the verification of customer service lines in our water system. The EPA is mandating all water systems in the United States to verify and document all Public and Private water service lines. The West Virginia Bureau for Public Health has created a Service Line Inventory Spreadsheet to list the information required by the EPA for the water systems to stay in compliance. We ask you to share your information with us, to help us fill out the Service Line Inventory, as required by the EPA.

Please answer all questions to the best of your knowledge. Print name and sign & date form.

Return completed form to the office as soon as possible, our deadline for completion is end of month.

- Return options:**
- 1) leave in the PSD's dropbox (envelope optional; no postage needed).
 - 2) mail back to Paw Paw Rt. 19 P.S.D., P.O. Box 2035, Westover, WV 26502.
 - 3) scan and return by email, send to PawPawH20@gmail.com.
 - 4) FAX to 304-278-8119

Physical Address _____, _____, WV _____
(House#, Street/Road Name) (City) (Zipcode)
