Hello from Mozambique! I wanted to ask for prayer for a specific situation we are dealing with at Masana. About 3 weeks ago we met 2 boys, ages 12 and 5, that are living on the streets with their mom who is not mentally stable. She leaves the boys alone most of the day while she tries to arrange money.

Today, we went with a team from social services and removed the boys from where they've been staying with their mother and took them to a local children's center. The mother was not there at the time so I imagine she is very upset right now. Would you pray for her? We will go back with social services on Monday to meet with her and offer her help but until she accepts help for her own mental state, she will not be able to get her boys back.

The boys were so excited to be out of the abandoned fair grounds where they've been squatting in a torn down ticket booth. Pray for them this weekend as they settle into life at the Iris Children's Center.
