Borage DiabetiCare™ Foot Cream

Addresses the fundamental cause of dry skin for people with diabetes by supplying OMEGA-6 oils directly to skin cells. Nonprescription, clinically proven, fragrance-free formula. Borage oil is the richest known source of GLA (24%). This oil is extracted from the seeds of the borage plant (*borago officinalis*), a wildflower commonly known as the blue starflower and used for thousands of years for its medicinal qualities. Because of its exceptional concentration of GLA, borage oil is used as the fundamental ingredient in all DiabetiCare™ formulations. 4.2-oz. tube.

COVIDIEN (68)

T.E.D.™ ANTI-EMBOLISM STOCKINGS

CLINICALLY-PROVEN PRESSURE PATTERN

Fitting Knee Length

1. Measure calf circumference at greatest portion to determine size.
2. Measure the distance from bend of knee to bottom of heel to determine length. (If possible, measure length in standing position.)

Fitting Thigh Length and Thigh Length with Belt

1. Measure upper thigh circumference at the buttock fold. When thigh circumference measures greater than 36 inches, select Knee Length style.
2. Measure calf circumference at greatest portion to determine size.
3. Measure distance from base of heel to determine length. (If possible, measure length in standing position.)

T.E.D.™ Anti-Embolism Stockings, Knee Length

LATEX FREE

Designed to reduce venous stasis below the knee when thigh-length styles are medically contraindicated. Clinically proven, graduated compression pattern helps ensure optimum blood flow velocity. Contoured, seamless construction eliminates harsh ridges that can cause constriction. Inlay circumference knit helps ensure proper pressure pattern and prevent slippage. Specifically designed knee band minimizes slippage without constricting circulation. Inspection toe opening. 18 mmHg. White.

T.E.D.™ Anti-Embolism Stockings, Thigh Length

LATEX FREE

Designed to reduce venous stasis in entire leg. Clinically proven, graduated compression pattern from ankle to upper thigh helps ensure optimum blood flow velocity. Contoured, seamless construction promotes comfortable fit without constriction caused by harsh seams. Interrupted band and functional gusset minimize stocking slippage without constricting circulation. Pressure break at popliteal protects critical area and promotes free leg movement. Defined heel pocket facilitates application and ensures correct stocking placement. Inspection toe opening. 18 mmHg. White.

JOBST® SensiFoot™ Diabetic Socks

Provides comfort and protection in every step. Non-irritating, smooth toe seam reduces pressure and irritation on toes, 8-15 mmHg (Crew and Knee High), no compression (Mini-Crew). Extra padding in the foot, heel, and toe reduces friction and provides extra comfort and protection. Acrylic multifiber yarns wick away moisture to keep feet comfortable and dry. Antibacterial, antifungal finish inhibits growth of bacteria to help prevent odor. Designed to be worn by both men and women. Sizing based on shoe size. See size chart above.

JOBST® ANTI-EM/GP AND JOBST® ANTI-EMBOLISM

Designed to reduce the risk of DVT (deep vein thrombosis), commonly known as blood clots. Specially designed as a thrombo embolic deterrent stocking. Apply gradient compression that is highest at the ankle and gradually decreases up the leg to improve blood flow to help reduce the risk for DVT. For patients who are resting in bed or otherwise immobile (non-ambulatory). Designed to be worn by both men and women.

MADDAK INC. (NV)

Heel Guide™ Compression Stocking Aid

The easiest way to put on compression hose. Unique indented channel on the inside of the center cone acts as a heel guide and keeps the foot in perfect position while effortlessly pulling on the compression hose. Extra-wide cone is ideal for people with edema or larger feet. Sturdy handles, 17" (43.2 cm) high, reduce the need for bending or stretching, and feature three grip levels to accommodate different heights and hand sizes. Easy to assemble and can be taken apart for traveling. Tested on compression hose up to 30-40 mmHg. Made in the USA.

KNIT-RITE (TG)

Core-Spun by Therafirm® Support Socks

NEW

Look and feel like a soft, comfortable everyday sock with the added benefit of true gradient compression. The ultra stretchy yarns make the sock easier to put on and along with the added thickness makes the sock more comfortable for all-day wear. Moisture wicking fibers provide a comfortable coolness. Deliver a controlled amount of pressure greatest at the ankle and gradually decreases towards the top of the stocking to promote better blood

flow, prevent moderate swelling, and provide relief for tired, achy legs. Ultra stretchy core-spun yarns make sock easier to put on. Comfort top is non-restrictive while staying in place all day.

SmartKnit® Seamless Diabetic Crew Socks, Black

NEW

With silver X-STATIC® fibers provide maximum protection. X-STATIC® is safe, all-natural and lasts the life of the product. Antimicrobial to inhibit odor in the sock. Silver wicks away excess moisture and keeps feet warmer in winter, cooler in the summer. These socks are perfect for people with diabetes or sensitive feet who are looking for luxuriously soft, non-irritating socks.

SmartKnitKIDS® Seamless Sensitivity Socks

NEW

Truly seamless, super soft yarns, and moisture-wicking properties make these socks comfortable for all day wear. Form-fitting design helps prevent wrinkling or bunching and reduce irritation. Non-binding Halo Top™ won't pinch or bind and fits comfortably without slipping down. Wicks moisture away to keep feet dry and control odor.

Medium Support (15 - 20 mmHg) Health Support Medical Compression

LATEX FREE

Fashionable relief for tired, swelling and aching legs, and varicose veins. Designed for ambulatory patients to aid in circulating blood through the legs. Accurately controlled compression begins at the ankle and reduces in intensity up the leg. Sheer fabric includes a "floating" reinforced heel to accommodate a broad range of foot sizing and a reinforced "balloon" toe for toe movement and maximum comfort. Thigh-length stockings: designed for full coverage and graduated compression up to the saphenofemoral junction

(located proximally at the groin where the great saphenous vein meets the femoral vein). Incorporates a silicone pattern on the inside of the band to ensure stockings stay in place. Machine wash in hosiery bag and dry on medium heat. Made in the USA.
