

# THE BURDEN OF DAMASCUS

## SINGLE 100-150 KILOTON NUCLEAR STRIKE ON DAMAS

Based on the *NukeMap* computer model, 1 single detonation of a medium sized 100-150 kiloton warhead dropped on Damascus would cause nearly a 1 million deaths. The entire population is reported to be 1,711,000 people. The detonation of just 1 medium-sized nuclear bomb would kill over 300,000 inhabitants instantaneously. The other 500,000 would die within 1 week due to complications of radiation poisoning, etc. The following are the known conventional methods of delivering a nuclear device aside from a 'dirty bomb' that can be delivered as a 'suitcase nuke' which by the way, some are not accounted for when the former USSR collapsed.

### ISAIAH 17

#### Nuclear Fallout

1,711,000 population

#### DAMASHQ دمشق

##### City of Jasmine

Urban area of 30 sq mi  
~2 million in large metropolitan area of ~3 million  
50 miles inland from Mediterranean  
2,230 ft above sea level

Latitude **33°30'47"N 36°17'31"E**  
between latitude of Hiroshima 34° & Nagasaki 32°  
1 of oldest continuously inhabited cities  
1 of oldest continuous Christian church founded by St. Paul the Apostle

This study believes the Isaiah 17 event concerning Damascus will be the trigger for the *Psalm 83 War*, that in turn will set-up the *Gog-Mag War* and subsequently, *Armageddon*. What is rather astonishing is that all the remaining Biblical wars will center on Israel and specifically in Jerusalem.

World Nuclear Arsenals  
ESTIMATED NUMBER OF WARHEADS

**Saul on the Road to Damascus**

It was the Apostle Paul on the road to Damascus that was blinded by the appearance of the LORD, Jesus. It was at this time that Saul had his conversion and transformation into Paul. Perhaps, at such a time of the Isaiah 17 event that this study postulates will be a nuclear detonation that likewise will produce a similar flash of light, it will make many Muslims and Jews alike to see of truth and reality that is it Jesus that they are 'kicking against the goads'

### New Israeli F-35s

New technology maybe what will deliver the bomb.

This illustration postulates that the escalation of the conflict between Iran and Israel in Syria will have either Russia and/or Iran pressure the Assad government, what is left of it and Damascus to threaten Israel to such

Damascus, Syria

Enter a yield (kilotons): **100**

Suspected Israeli Nuclear Arsenal SLBM

Total initial estimated fatalities:

## 390,890

Total Estimated injuries:

## 590,550

In any given 24-hour period, there are approximately ~152,000 people in the 1 psi range of the most recent detonation.

#### Some Observations of the Possible End of Days War Timeline

Perhaps as a mirror or prophetic echo of the 70 years of captivity of the Jews in such lands, the 70-year anniversary of Israel since 1948 will have some sort of prophetic synchronicity in 2018. Until then, many Muslim mercenaries have come from various Muslim enclaves of the Islamic World to fight in Syria. In effect, the downing of a 'high-tech' Israeli jet has given the Muslim factions courage and newfound resolve to sustain and escalate the fight against Israel. On one hand, the Russians showed-off their technology and on the other, the Syrians were satisfied with their investments. More so, now that the USA has officially proclaimed that Jerusalem is Israel's capital and off the table in any Palestinians negotiations, the only option is eventual war against Islam. It is not a matter of if but when. As Israel has reached its 70th year anniversary in 2018, it could also coincide with its reaching 'maturity' as a 'Super Power' as well. The point is that all such 'Super Powers' have made a nuclear detonation to prove it as an 'initiation' into the Nuclear Club, etc.

Since the Yom Kippur War of 1973, Israel's nuclear deterrent has been that of the Sampson Option. This requires a rationale in that such a decision and act would have to come from the last resort pertaining to its sense of imminent annihilation. This 'option' is basically 'Mutually Assured Destruction' is one in which, if Israel gets 'nuked' so will its instigators. Has Israel had a credible threat of nuclear annihilation? Yes. In 1982, Israel bombed the French made nuclear reactor outside Bagdad that Saddam Hussein ordered built. The Israeli Mossad uncovered publications that the Iraqis wanted to 'neutralize Israel'. In fact Saddam named the reactor Tammuz for the month in which King Nebuchadnezzar started to destroy Israel.

On February 10, 2018, 'open war' with Iran has now occurred for the first time since Persian Empire was ruled by Darius and Xerxes. Persia has historical dealings with Judah or Israel in this case, which is the last tribe of Judah. Ironically, ancient Persia has had one of the stronger dealings with the Jews throughout history.

It could be the case that either some Iranian elements and/or other Muslim paramilitary fronts could be planning to use such a nuclear devise against Israel. Also, all the chemical stockpiles that are purported to be there would be also taken out. On another level, the Israeli nuclear detonation in Damascus would also serve to put Russia, Iran and Turkey at bay to secure their survival. Such a detonation would broadcast to the Muslim 'ocean' of adherents that Israel means business and will not tolerate and threat of extension ever again. It will serve to 'scare' Israel's enemies from ever attacking again. What is rather interesting is that for the first time since 1948, the additional nation of Iran is one that is now directly involved in the confrontation against Israel.
