

# 10 PROPHETIC RED HEIFERS

## HISTORICAL PATTERN OF THE 10TH SACRIFICE

The purpose of this illustration is to examine the concept and divine prescription of the Red Cow or 'Red Heifer' in the Bible. Why this topic is important is that the Temple Institute and the Nescient Sanhedrin in Israel have finally arrived at the time where several Red Heifers have been procured. Such a Red Heifer is needed to purify the Temple Mount so as to have the construction of the 3rd Temple by sanctified. Also, once the Temple is built, the Altar of Sacrifice that has now been dedicated will also make the Daily Scarifies sanctified. If these prophetic developments are any indication of how close such Jewish religious institutes, agencies and organizations are to implementing such divine protocols, then Daniel's 70th Week of Years is at the doorstep. According to Jewish tradition, there will only be 10 Red Heifers or Para Adumma in human history. The Sanhedrin and other religious Jews fervently believe that 10th Red Heifer will directly usher in the arrival of the Jewish Messiah. Is it any coincidence as to the prophetic timing of how the Church Age has lasted nearly 2000 years and it has been this 'Last Generation', the 70th year to be precisely, that all of the sudden amazing Biblical requirements are being completed in the sight of the whole world. Based on the Biblical requirements, the Red Heifer must be 3 years old and perfect in its redness. Even its hooves must be red. It must also be totally free from any physical blemish or defect, whether internal or external.

Since the Temple no longer existed after 70 AD, technically the Jews became 'ritually unclean'. Because of this dilemma within Judaism presently, many Jews sought to reconstitute such ordinances, but with no success until now. It has been primarily the Temple Institute that has spearheaded the Red Heifer Project in an attempt to procure such animals.

### The Ashes of the Red Heifer PROTOCOLS OF USAGE

- Ashes were mixed with water to create the 'Purification Water'
- Everyone in the Camp were sprinkled on the 3rd and the 7th day.
- When someone came in contact with a human corps, bones or a burial place.
- Applied when someone died in a place and people were present.
- Applied to all the plunder taken during war.

### — UPDATE —

On March 25, 2022 it was reported from Arutz Sheva Red Heifer, 'The Good News is that the Hairs have returned to Red within a few Months. At the same time, we are now looking forward to the 2-Year Birthday of 3 more Heifers that were and still are completely Red.'

With GOD's help and if there are no mishaps, within half a Year we have 3 Red Heifers ready for the Temple'. This Timeline makes it possible for the Dedication to start in the Fall, September to October during the Fall Feasts of YHVH.
