

(Snow plan—still room for about a dozen cars)

*Please park close together to make space for others! Thanks!*

Six cars can fit in our carport but must be bumper to bumper.

Two cars can park behind our house at the very corner of the cul-de-sac. Please make sure our neighbors can still use their driveway.

Two cars can park across the street—please ensure cars can still pass.

Three or four cars can park beside our house along the fence. You'll need to let your passengers out before parking.
