Congratulations! 2016 concluded another successful trail riding season! This past year had continued growth in enrollments for both the CHIP and TRIP programs. I'm happy to once again say that this was our most competitive year so far. The trail ride sanctioning program continues to accumulate more events, 2016 produced eight sanctioned NWA trail rides and one competitive trail ride. Additionally, we met our 2016 goal to increase youth participants, although we would certainly like to see even more growth in this area.

2016 TRIP/CHIP Results
