

CAPABILITY STATEMENT

Core Competencies

For 23 years, JMS Communications & Research has been helping state, regional and local governments to successfully build support for projects and programs through strategic communications and public and stakeholder engagement. We help planning and design teams and construction contractors to identify and address local issues, communicate with communities and local officials. We provide comprehensive strategic communications, public affairs and public relations services on public sector projects. JMS is a woman-owned business and is conveniently located in Central Florida.
