

Red Dragon Ambassador

COBRA

The Promise Revealed

The GoldFish Report

A Joint Collaboration Interview Q & A Published November 20, 2015

Rob - OK ladies and gentlemen. Welcome to another special edition of the Victory of Light radio show. This is a "double your pleasure double your fun". This will be the 2nd interview with Cobra this month. We're very honored to be sharing this interview with The Goldfish report, Louisa and the Red Dragon Ambassador today. We have lots of things going on in regards to the finances of this planet and we're doing this because Louisa and I are both passionate about unity and supporting each other in the truth movement.

For those of you who know I have interviewed the Red Dragon Ambassador. I was a little tough on him in the first interview. I do have some differing views of the financial system should be open. He was very gracious in allowing me to have my differing views. He mentions that the Red Dragon Elders are reptilian in origin; one of them is a reptilian. I had a little issue with that and I kind of feel like the financial system should be "even Steven" around the world and not really in control of the Chinese or any one group especially a Reptilian .

Of course if they're the ones to tip the scale, that's good. I think it has to be a holistic circle. That was our only differences. I feel the ambassador is sincere. The Red Ambassador was again, very kind, very understanding of my "testy Rob" vibration in our last interview. Today we have a 4 way conversation going on around the world. I'm in Hawaii. We have various points on the globe: in New York is where Louisa is. Louisa is working with the Ambassador. She'll be here on this and she will be asking some questions too.

So you know the Ambassador and Cobra have not really met or talked to each other but they both respect each other. They'll be asking each other questions. This is not a battle of ideals or things. We're going to try and get clarity for all of us out there in the light worker team to see what is going on out there and see if we can pick through the various challenges that we have here.

Without further adieu I'd like to welcome them all. Because of our Skype thing I think we're going to start off and I'm going to let Louisa ask a question of Cobra to begin this and we're all going to mute and listen to what Cobra says and then if the Ambassador would like to comment or ask a question I think we can go forward from there. Welcome again to the

Goldfish report and the Victory of light radio show. This is only transcript, once again due to the recording issues. Thank you so very much. Louisa - take it away.

Louisa - Thanks so much Rob. And I just want to thank the Ambassador for coming today and also thank you Cobra very much for coming. This is a very interesting opportunity because we are here to bring about positive changes on the planet. I think if we can combine our energy and intention and effort we can be a formidable positive force on the planet to bring about these changes.

I'm so very, very excited and glad to have this interview and so glad that Rob has been so kind to host this as well and provide this platform for us as well. I would like to start out and I would like to start with a little bit of an Esoteric question for Cobra. Please forgive me if these are things you've explained in the past. I know the Ambassador gets asked some of the same questions over and over again. When you have new people in the audience you like to try to break this down for them.

What I understand, this etheric liberation that you're talking out. There's liberation on many different levels going on and from what I understand, your mission includes The etheric level you're referring to these Strangelet bombs and that they are black holes and somehow everyone is incarnated into this life with some sort of implants in them that's all tied in together. Sounds very complicated. I'm just wondering if you can just give a little bit of an overview of how that works and what the progress is with that at this time.

COBRA - OK. The situation looks complex but in reality it is not. It is simply that we have apart from the physical plane, we have I would say higher planes of creation, higher dimensions and in those higher dimensions many things are happening. We have aside from our physical bodies, we have our plasma bodies, we have our etheric bodies, we have our astral bodies, we have our mental bodies and all those energy fields that we have have been manipulated by the Archons and have been actually kept in quarantine. They have been locked in a certain vibrational frequency to prevent us from setting ourselves free. And implants are actually tools of that control and strangelet bombs are tools of that control and now all this is being dissolved because there is a big wave of free will taking place throughout the galaxy. There is a strong wave of light emanating from the galactic center at the moment, which is purifying everything that has not been right. It is aligning everything that has not been right with the purpose of the creation, which is to experience love and light throughout the creation. And this is why we have a very strong and very intense process of purification on this planet and in our solar system. And this is why we are going through this drastic change and this is why the event will happen. This is why the liberation of the planet will happen. It is part of the larger galactic plan.

Louisa - OK. Thank you.

Rob - Ambassador, do you have any questions for Cobra on this now.

AMBASSADOR - Yes, I would like to ask a question. "How did you come into this particular awakening and this environment, that led you to this knowledge that you have today?"

COBRA - Basically it was not an awakening process. I actually never lost my memory of who I am and what is my mission here. It was simply an on-going continuation of what I'm doing

and I was simply waiting for the right time, for the right circumstances when I can begin to release those things in the public. But I was working behind the scenes for quite, for quite long already before my public work through my blog started. So it's an on-going process and it has many layers and many aspects. Some of them are public, some of them are not.

Rob - OK. I'm going to ask a question of the Ambassador and I'll follow up a little bit for Cobra, Ambassador. He has had a physical contact when he was younger with the same Pleiadian contact that I was working with with Dr. Bell. We had a lot of things in common. So my question for you Ambassador is, as I've stated before to people, I believe you're absolutely sincere. You're putting a lot of time and effort in with Louisa to help people prepare projects for financial releases. I have been in contact with someone who I have to remain nameless who had a bunch of Bonds and he actually went to China about 2 weeks ago and he had cemented a deal that he'd been working on with Treaty of Versailles bonds.

He did not have any new Iraqi Dinar and while he was there he said Christine LeGarde had actually called in to the meeting and had indicated that things may take some short time. He feels that it still has to go through the existing IMF and World Bank. He was also told that according to her that some arrests must take place but these funds would be released very soon. Can you talk about the current state of affairs as you know from your sources in the Dragon families. What is the on-going situation at this time with the release of prosperity funds?

AMBASSADOR - "When I make my statements, somethings, unfortunately, I'm not allowed to talk about because of confidentiality in this mission that is going on as we are speaking. But I do not like when the world is living on what we call disinformation. As we all know this Treaty of Versailles box is basically a debt. This box is in itself worthless. They are already exist, what we call Grey screens or the death screens. At this point of time, all the international entities; World bank or IMF and each of these organizations has certain trustees which is the head of these particular organizations.

We had visited, as you saw, to Europe in Britain where the Chinese President was there and as well as with the Queen. And this is what we can say is like a World Bank arm of things. And so the World Bank situation is settled and priority of things is settled today and the IMF is also settled but each and all of these organizations have what we call certain controllers.

And in this situation everything works exactly as it's supposed to be. Now when this funds becomes remitted and now it's not redemption doesn't exist. When these things have been remitted what's happening is basically that a portion, a percentage of this asset will be released to the holder. This funds is quite large amount of money that will be released at that point of time. And this funds of course needs to be dispersed to humanitarian projects.

Some money can be kept for private means, but priority funds needs to be given to the people, back through different humanitarian projects, cleaning up the planet, helping with the infrastructure, helping with creating jobs, and other social programs. That is what the reality is.

Many of these organizations you will see will be leaving their homes where they were today, would come to the new home because we had different times when we had box Britannia and now tax America and that time is now over and so basically now it has to be moving left just like the arc of the covenant has. So in that regard now it's time for feast ? and a time of guarding and interdicting and that's why the pyramid as we know it will be falling down.

That's basically what I can say in relation to the release of funds the way it has been presented by many people, it's, from my opinion based not only from the family but also from the financial structure, all the Elders (?). It's not the way it is presented. Unfortunately it's a lot of disinformation.

Rob - Thank you very much Ambassador. I appreciate that. Cobra, would you like to ask a question now of the Ambassador, maybe on something else or on what he said.

COBRA - OK First I would like to say a few things. The process of financial re-set does not include only the dragon families, it includes all interest groups that we have on the surface on the planet and beyond the surface of the planet. So I would say that each of the interest groups have their own idea, their own motivation, their own, I would not say agenda, but their own course of action and all those different groups need to come together and find a common ground and this is one of the reasons why things are taking so long because each of those groups has a perception that they are the ones who are responsible for the financial situation on the planet and they are responsible for the reset, which is not true.

Actually the combined effort and combined synchronized action of all those groups will bring about the re-set. And what needs to happen is that all those people need to find common denominator and need not focus on differences because there will always be differences but there needs to be a certain critical mass of agreement created for those changes to happen because the changes needs to happen to the surface population. The changes can not happen, the resistance movement or other ET beings can not be the carriers of the change on the surface of the planet. The surface population needs to be the one making the change and this is not about China, it is not about focus shifting from West to East, it is about having a global planetary consciousness and each interest group having their say in what needs to happen on the surface of the planet.

Rob - Very good. Thank you. Louisa, do you have a question for Cobra in relationship to what he just said.

Louisa - I do. And I think you said it requires the surface population to make the change yet all these other entities need to be involved in this process to kind of have a common denominator about what to do on the surface, so if I'm not mis-understanding this, it seems a little contradicting and maybe I don't understand what you said. Could you clarify that? It seems to me that the surface population needs help. If the ETs and other entities lived on the surface of the planet it would happen faster. It's not fun being here the way things are. I think they're kind of wasting time pussy footing around when they should just get the work done. What's funny is that they can't seem to get it together themselves and they criticize us and call us lower beings or bottom feeders or useless eaters when they can't get it together themselves. It seems to be taking a very, very long time. I'm just wondering what exactly if they're the ones who have to make the decisions to get their act together and may come and have these common denominators to make decisions for the people on the surface, just exactly what do you expect the people on the surface of the planet to do?.

AMBASSADOR - If you can see it this way, there is some blood. People have, they've had their own understanding and thinking how things are on the planet.. And how the financial

system is operating and the things with the Cabal and things with the Dragon family. If you simply go and listen to people like Neil Keenan and you're following him for example for years and listening to his stories, you will very simply form one understanding of how the system really works... understand that this is his version with a very, very low understanding how the Dragon family works in the first place.

I don't know even, I know he claims to be related to and works which level they are on, but he has not been very well trained by whoever taught him telling him the things he is doing. If you base that or base what Benjamin Fulford is talking about, you base what these people are giving out or ideas how things are working with the Dragon families and Illuminati and the Cabal and all these different things. It's very much different from what the reality really is.

Now the world as you've stated here, when you look, we have something we have as The Supreme Council. In the Supreme Council you have a number of Dragons, then you have a number of Tigers as Cobra may be aware of, this is just codes. But in this structure that is built up and has been built up for thousands of years all entities from the planet is actually in reality - __ when we state we are moving from one direction to another direction, it is part of a process that the elders are putting forward that goes back thousands of years as well as the prophecies that led to the 555 evolution which is now.

Now we know very well that some of the Elders supposedly are not 100% humans, so have ET lineage or --. In this regard, they all are communicating in some shape or form. The problem is that on the planet we have a covenant and the covenant is what we call free will. People want to say, you have the devil and you have the God and you have the good the bad and the evil and then you like to blame it all on someone else instead of taking responsibility for yourself. In the concept of the world building, we're built up as yin and yang and him and her which is positive and negative and that order is respected and respected order of free will. Now people, some people want to have free will and at the same time they don't want free will when it comes to responsibility. But I think what you are talking about Cobra, is already in existence, is exactly what we are talking about but there is frictions besides the same structures we're talking about even in the same families. There are actually some people that has one opinion and another one that has a different opinion and that's the reason why we are having this delays that we are seeing on the planet today because some people don't want to let go of the power that they are used to having.

Rob - OK. I'd like to let Cobra answer Louisa's question that we kind of got sidetracked there. . Cobra, if you could answer Louisa's question to re-cap that.

COBRA - OK. Basically people have a misunderstanding of what the ET are doing here when they help liberate the planet. They have their role. They are carrying out their role. I would not say perfectly but good enough at this moment. What they are doing, they are dismantling exotic weapons. They are removing the stragelet bombs, they are doing much to keep this planet in shape. They're preventing a drastic cataclysms. They have prevented many world wars.

So they are doing their part. Also the surface population, the awakened part of the surface part is doing their part and this is not about somebody being better than the other, but the situation itself is quite drastic because there are many mistakes being made in the last I would say 25K

years and to a certain degree the last few millions of years. And now we are correcting those cosmic mistakes so it is not about putting blame to either the surface population or the ET's.

Each segment is doing whatever they can to their best abilities, hopefully. There are many beings doing whatever they can but there are of course also many beings that are not doing whatever they can to assist in this situation. Regarding the role of the Dragon families, my experience with interaction with the various Dragon families is that there are many positive dragon families out there but they are not completely aligned with their vision and they're also some factions that have different agenda's and all this needs to be aligned before the change can happen.

And as I've said before, the change can only happen through the surface population and Dragon families are an important part of that surface population. So I would like to communicate to those Dragon families that are not completely aligned, this wealth does not belong to them. This wealth belongs to the whole planet. And I know that many of the Elders are very well aware of this but I would like to say that it's important that everybody goes on board and begins to understand this. It is not about China being the new world leader. It is not about certain dynasties coming back in their rulership position. It's about the ancient custodians coming to the forefront and assisting in distributing this wealth to the whole of humanity. In Africa, South America, North America, Europe, Asia, Australia, everywhere. This is the purpose.

Rob - Yes, I appreciate that. Cobra, do you have any specific questions for Ambassador in his role as he's stated or some of the information, you did address some of that. It would be your turn to ask the Ambassador specifically a question if you have one.

COBRA - OK. Yes actually I do have a question. Is he having any direct contact with the Elders which claim to be immortal or are living hundreds and hundreds of years.

AMBASSADOR - You see our master, his father is one of them, understand. (yes) And also through our structures we are, and I have been working directly with this entity. In some way in a physical form. What that means is not just over electronic communication, that's why I would say. I stated that my master, his father is this main Elder that everyone is always talking about.

And other than him, there exists other entities on this planet in different parts of the world. You can call them warrior Monks or Llama's or whatever you want to use them when you have some of them that are ET's. In some case of them yes I had a personal physical meeting with these entities and in my work that I did during these years I know and not only dealt with the dragon families, I dealt with all the families, you see.

Including others that is going on with the groups called the Tigers. And so I have had the communication with this people and as I stated to everyone before because I think that if we want to be able to move further in the future we need to somehow repent for the past and ask for forgiveness. .

In that thing we have to see that in reality we have people that is sharing the view that minority of ones in the council do today, but you also have some people that have other agenda's OK. And that is not specifically just before. The faction of the family I come from the majority of us are aligned but some portion of others just like Cobra said, do not sometimes see the same way as we see it. They see another system for humanity.

Also I know that people do believe that this asset belongs to humanity but as well they look at themselves as the custodians of this asset and as rightful owners for it. So this is an argument that can be taken by the people that is on the levels, but the most important thing is that the people that has the possibility and power to do it, to change the world and shift it and to do the right thing - we are going to do it in the way that will be best for humanity. God willing.

Rob - Thank you Ambassador. I had a quick question. The entity that you met that is your master's father, is this the one you were talking about that is, you said is an Anunnaki reptilian.

AMBASSADOR - I didn't say I met master's father. I specified, I said the master's father was the man that many people revered for hundreds of years. But there's many more than him in this structure with this same back ground. That hold's a different position. That particular entity that I'm talking about, he has many different codes, names and it's not many people of the planet that has been granted his presence but it's a lot of copies of the same man that some people claim that they have met. I have not so far met this person, but I have met other elders with the same over-aged things which are Extra Terrestrial in the form that you just explained.

Rob - Yes. So they are Anunnaki reptilians, some of these elders, that's what I'm trying to ask.

AMBASSADOR - Yes and we even have a person that we came across a few years back that is a so-called warrior Monk Llama that is a Nordic..... And he looks just like me only difference is a little bit taller than what I am and probably much more intelligent.

Rob - OK. Ambassador, do you have another question for Cobra.

AMBASSADOR - Yes, Cobra, I have a question for you. Have you ever come across a person with the code name Golden Violet?

COBRA - No, no.

Rob - Louisa, do you have a question for Cobra.

Louisa - OK, I do. I wanted to ask this concept of these soul groups coming together, the soul mates, the twin flames and I'm curious when, I had read this because I have followed you for quite a while before coming aboard with the Ambassador. What does this mean and what is the purpose of the soul group and can you break it down. What does it mean to be a soul group. What does it mean to be a twin flame and a soul mate and why are they coming together at this time?

COBRA - The souls have not been created as individuals, the souls have been created in groups and souls have actually emanated form the Galactic center in those groups and those groups

that were created together are called the soul groups. And usually those soul groups tend to incarnate together in the same space and time and the same I would say, also in the same country or the same region and they meet in their, during the course of their life they meet and they recognize each other. Those souls that are much closer together are called soul mates. Each individual soul before it enters the 3rd dimensional world splits into two polarities, the male and female polarities, they are called the so called twin souls, or some people call them twin flames. One of the programs of the Archons is to prevent the twin soul from meeting. The reason why twin souls meetings have not been happening on the surface of the planet or if they have happened, they have been prevented, in some cases quite drastically. So they're extremely few twin souls meeting right now on the surface of the planet. It's not happening yet. But many soul mates are meeting and they are working together for the planetary liberation.

Rob - Thank you. I have a question for the Ambassador. Ambassador one of the things you said earlier is it's not about God or Satan or good or evil and we are all free will beings. Now part of the information from Cobra and my understanding from my own personal experience is that we are free will beings but there has been something which is been called the fall or let's call it a rift in the force like star wars to a certain extent, that has created a very negative situation which has been literally for millions of years in the process of clearing out.

Now I would put forward that we, if we want, I don't want to just call it Satan, but there certainly is an iniquitous element within the galaxy and especially on this planet that is choosing to go against natural law and is violating our free will, so with that in mind. . . I know that we've all agreed to these contracts and stuff, but I would like to ask you what is your position on, let's call the Confederation, the light forces in the Christ energy group. What is your position, do you believe in a living loving God and what is your position on Christ and does Satan exist or is there a negative force. Can you talk about your feelings on that.

AMBASSADOR - This will be my personal opinion. OK. I just want to say that first all I want to talk about Satan. He's mentioned 5 times in the Torah and he's mentioned 125 times in the Bible and the word Satan actually means obstacle. He's an obstacle between man. If you read the Torah he was sent to test Abraham. Also he was not the serpent that you saw in the Bible that says the Serpent and Satan are the same entity which is not in the Torah. There is a lot of mis-communication and conflicting information when you started this religious books. I do believe that we have a creator. I do believe that we do have a supreme intelligence that is behind the whole creation, meaning even the creation of Aliens, creation of all forms of life forms. And I believe that's what the difference is, you stated the concept of Jins, the Jins can be even Muslims, Jews, they can be Christians, they can be Buddhist. They can have different forms of religion. They support the form of Creation, according to the Koran. You have all these different forms of concepts, now what I'm talking about when I'm talking about beings I said in the Koran you have basically written that God created both gins and humans and Jins are a life form which many people are referring to demons or aliens or other types of beings. It's a form of different creation.

And basically there they can have other religious views, this people can be Buddhist, Christian, Jews, Muslims or all different forms of religions. The thing which I like to emphasize is that one of my grandmasters once told me that a man needs to spend at least 1 year in prison, in

isolation to understand the world of spirituality and when I heard that I was a young man and I thought he was insane.

And I never had but one point in time I was in a situation where the Cabal aggressed on me and I was in isolation for over 2 years before I was freed from that situation. And basically what I discovered was that even if I was isolated in a little room and no contact with my family or anyone else, basically they could lock up my body but they could not lock up my soul and they could not lock up my spirit. And basically you can make decisions in life which is based on good or decisions based on evil and we are the decision makers.

We can also see good and evil and we can either silently consent or we can intervene. And the problem that has come into humanity is what we call escapism. And escapism is something which I feel is the biggest threat to humanity. As well as we're blaming Satan for everything or we're blaming someone else without taking responsibility ourselves. With a mass awakening or mass consciousness we will be able to transform humanity into where it needs to be but if we put Satan between us because Satan, means Shaton, - basically means an obstacle,. If we put this obstacle between us then we will not be able to aspire to what we are created to be.

Rob - I do appreciate that. Your aspect there that you feel that people and I would agree completely that people cannot blame everything on Satan. But there is definitely a hostile force. Would you agree there is a hostile force, you called it the Cabal, they put you in jail, so I guess I answered that question. So you do understand there is a force that is manipulating humanity. Humanity would never choose for evil if wasn't deceived by concerted intelligent negative action. I'd like to ask Cobra now, do you have anything to say or comment or any questions at this time for Cobra.

COBRA - Yes, there is a force that is opposing evolution and there is a force that is opposing positive growth and this is why we need to liberate this planet and yes everybody has free will but this free will has been tampered with and we need to liberate that free will so we can express it fully.

Rob - Thank you. Louisa you said you had a follow-up question for Cobra.

Louisa - I do, but it's like two questions. It's directed to both the ambassador and Cobra. First I want to say don't get me wrong. I'm not being aggressive against ET's who are trying to come and liberate the planet. I just find it a little interesting that ET's are, from what I understand, they're supposed to be so much more advanced, yet how come they can't get it right up there and agree on things. It's like 'as above, so below', I don't really think we're that much different..My follow up question is I wanted to ask Cobra what is it about twin flames that the Cabal is trying to keep them from uniting?. Is there something special?. The second question is; How can we help humanity. How do you see, and I also want to ask the Ambassador this too, we'll have to take turns - Cobra first. How can we help humanity. What can we do right now. How can we align our energy and our combined missions here to make this and bring these changes about faster. So that's the question I have for both of you. And also If Cobra wouldn't mind elaborating on why the Cabal is trying to prevent the twin flames from uniting. What is it about that.

COBRA - Yes. Union of twin souls would accelerate the liberation process drastically because combined energy of twin souls is the most powerful force in the universe, so of course the Archons know about that and this is the reason why they are preventing it. For the second question what people can do, the most important thing to do would be at this moment to release intel to people. Because people although there are many blogs out there, there are many outlets, information outlets out there, it's far from being enough. We need to completely saturate internet with truth. There is so much disinformation out there so there needs to be much more alternative blogs popping out everywhere on the planet because this will awaken more and more people. This is number 1. #2 is for each person to ask himself or herself; what can I do to unite with other people in harmony. What can I do to create more unity practically in my life.

Rob - Louisa did you want to direct a specific question towards the ambassador now.

Louisa - Yes and I wanted to give the ambassador a chance to answer the same question; What can we do collectively to help humanity, individually so the Ambassador has his own mission which he might want to answer that question in that context. Does the ambassador see a way, anything else we can do to help humanity and bring about these changes faster.

AMBASSADOR - The main important thing is I think people need to open their mind and that's the reason why we started the goldfish report is to try and make people look at things in a different way. Many people on the planet are unfortunately asleep and they are not conscious about what is even happening in their own daily lives because many of them are too busy to try to work and survive in this slavery system.

I think it's important for us to reach out to everyone and make people have more time to spend with their families and have a better quality of life and I think if people have a better quality of life, they would be able to get deeper into changing. Also like to engage themselves in projects, engage themselves into actually doing something to change things in their own communities and their own towns and their own countries even. And also it's very important that you have to use discernment with the media and discernment with the politicians in their countries because unfortunately they have a PhD in deception. It's not easy sometimes but it's like the goldfish that goes around in it's bowl that needs to discern if this is his reality or this is a reality someone else created for him.

Rob - Thank you very much. I think the ambassador being a member of the Red Dragons, I was hoping if you have any questions Cobra, for him on the financials. We've heard from Ben Fulford and Corey Goode said the Chinese are asking for an extension of 100 years. I have to laugh at that because it's not, as you said early, I strongly feel that it's going to be a world wide situation and my experience is that at a certain point spirit and the divine mind of the creator will interpose and things are going to change and an out pouring of spirit and a revelation to humanity individually will bring forth the proper awareness and this will take place as the control matrix is brought down, whether it's in the infrastructure of financial tyranny or in a plasma scalar field network, there will be a tremendous increase in soul contact which will bring about a change and this will also coincide with contact from the benevolent Great White Brotherhood and the ET's. That's kind of a personal comment. Cobra, since we have the Red Dragon Ambassador here, with all this financial stuff going on, I'd like to defer to you if you

have a question for the Ambassador that you think that he might be able to clarify the situation with the Dragons or something that you feel people should know.

COBRA - Well maybe he could state his own opinion about how this re-set and how this financial transformation should take place. His own version, his own perception of what the Red Dragons want to achieve and how they think or how they plan this transformation will take place. I would just like to say, I would like to make a short comment about what Corey said about the Chinese. Unfortunately there are Chinese factions that would like to delay disclosure for 100 years. Of course this will not happen. But people who are having those agenda's are slowing down the process. Some of those people are aligned with the Cabal and some of those people would just like to keep their power. I would just say once again, to all the Dragon families that would like to slow down the process - This is not going to happen. And I would like to say to those Dragon families that are accelerating this process - to unite and to integrate all the rest of the families into the unified vision because this vision will benefit the vast majority of beings on this planet.

Rob - Ambassador, your response to Cobra's overview question.

AMBASSADOR - I want to correct some of the disinformation here that comes from the Japanese side or the society that Benjamin Fulford created, this white dragon society. First of all it's not 100 years that mandates is for. The mandates is in 70 year cycles. This last 70 year cycle and the year before that was given as a mandate given to Barak Sheis, Rockefeller, Morgan's and Stanley's and Queen of England and many of these other ones. They were the ones having the mandate, not the Chinese.

The Chinese is the one that has been giving the mandate to them. 2012 when the meeting took place and the Cabal that we call them, or the old elite basically did not get the #70 year project signed on. So what has to happen is since that period of time the transformation that leads up to the global currency re-set that leads up to the new era has been taking it's time, but, it has been taking it's time because, some portions even inside the Dragon families from different forms and different entities in alignment with the Cabal has been slowing down the process by posting people including myself and others and basically trying to kill us, but you know in that covert way because in other ways they will kill 9 generations back.

This is the problem, so it's important for people to realize that it is 70 year cycle. The new 70 year cycle is actually new people for the new generations put in place . But you have to realize that the old group, they have 120 years, 140 years of established contacts and brainwashing and they have their people everywhere all around the world in the banking financial structures. So I think it's going to take some time to transform this but if the people that is in the grass root or higher up in that system submit and do the right thing, I think we're going to be able to transform this into this new era and in this new era it's built up where all nations are involved and all people are involved and is built up and actually canceling debt instead of creating debt. The whole new system is basically completely 360 for what we have seen today. And I think that this is also something that worries me sometimes is that people, they have half truths and they take it into truth and give it as a report, but the real truth of the matter is that the mandate was not with the Chinese, the Chinese is giving the mandate but the mandate was with the old group and they're not having mandates any more. So let's see how the new guys will be able to

change the future. That's what I have to say. And all the people are involved and all nations and all the 5 continents.

Rob - OK. Thank you. So the mandate that you're talking about. . . I think the mandate actually comes from heaven this time, from the supreme source of creator to purify this planet in the name of truth and the living word of god. I believe that it's not a 70 year cycle that this old financial system is going to completely be changed completely. Cobra had asked how you envision this is going to take place. Could you follow up ambassador with that part of the question. How do you see this re-set as taking place.

AMBASSADOR - We see it in front of our eyes as we are speaking. We're seeing the Chinese Renminbi taking place as one of the basket currencies, probably be the next reserve currency. We are seeing powers and entities shifting like what I said from West to East. We're seeing how Europe and America is Turing into tyrannies and we're seeing a lot of different organizations, different people aligning with these people that they never did before. We see Putin coming in actually as a Knight in Armor and, masterfully, is crushing the deception of the Cabal and we are seeing a lot of things happening. And we see these new entities created and this is a start. I think that we have in reality maybe come 30% on the journey that we needed. But I think it will very quickly accelerate after Chinese new year.

Rob - Thank you very much. Cobra, do you have any follow-up questions to the Ambassador in regards to his statements.

COBRA - Yes. I would like for him to elaborate a little bit more how the Red Dragon families concretely see the re-set and do they tie together with other aspects of the event like the global mass arrests and global disclosure process and what is their perception of the disclosure process. And do they have any concrete plans to release some intel about ET involvement in world affairs.

AMBASSADOR - Yes, as you understand in the family structure divided into 3 arms. You have the Treasury arm which was once controlling the money and the wealth. then you have the second arm which is the political arm which you can see through the BRICS nations and other creations and the leaders there. Then you have the 3rd arm which is the military arm. When it comes to the military arm yes, they will be dealing with the people that are not submitting or surrendering.

You have already seen people disappearing and shifts and changes happening there. On the side of the money arm of things are moving forward in the way that it should, a little bit delays due to the old ones not wanting to let go and the political arms also needs to be even better because unfortunately still people are living in some of the nations with a lot of corruption still and that needs to be changed.

But I believe personally that we are heading in the right direction. I believe that the distant agenda with truth and reconciliation, that includes the aliens, that includes all aspects on the planet and that could also be released at a certain form of time when everyone is ready to take it and the stability of the world is there but as we all know is a lot of activities these days in our

skies. And I don't know how long it will take, political arm will try to keep what's going on away from the public. But it's all a process

Rob - Thank you ambassador. Now I'll ask Ambassador if you have any questions for Cobra at this time.

AMBASSADOR - Yes, one last question; Have you ever heard about this entity called : Vladumere?

COBRA - No.

AMBASSADOR - I just wanted to know because Vladumere? is also one of the ET's that has, that supposedly appeared to be dead but he was not, and supposed to be awake now. He's in Moscow as we're speaking communicating with people after being in a deep sleep for thousands of years. I was just wondering if he had any knowledge about this particular entity. But other than that, if you don't have any information about him then I ask what you plan here. Do you have any plans that we can sit down and work together with?. How could we work together, me and yourself, and with entities that you work together with to make this place a better world, speed up the process of a change on this planet?.

COBRA - If he has any projects that he would need assistance he can e-mail me and I will see through my contacts if we can assist him in his projects. So this is something that we can do.

Rob - Well that's good news Ambassador. I will see to it that you get Cobra's e-mail. Louisa has another question for Cobra.

Louisa - Thank you. I want to ask about this disclosure. We are seeing a lot of things in the skies lately. Does Cobra have any insight on Los Angeles. What was the sighting over Los Angeles that was reported recently?

COBRA - There are 2 things happening. One is the increased activity of the US Military. The other thing is the increased activity of the positive ET's over California's skies because they are beginning to trigger some sensitive energy nodes in that part of the world because California is one of the key triggers for disclosure process. So they are triggering this and the military is reacting, so we have a little bit of, not exactly confrontation, but I would say energetic exchange which can sometimes be visible in the skies.

Rob - So this particular light phenomena which was witnessed by many people was not a missile as was reported.

COBRA - There were many light phenomena visible, some of them were military, some of them were ET.

Rob - Yes, it's very difficult for us on earth to understand every single light phenomena taking place. Oddly enough that same night, I was in here on Maui and I saw a very bright light from mid-heaven, drop below a mountain very white, vey proud kind of streak. It was not a missile, it was moving too fast, it did not leave a trail.. Yes, there are lots of activity taking place folks

and when Cobra speaks about the nodes, he talks about the grid and the ley lines that have been taken over energetically to influence human consciousness on an esoteric level and the light forces are re-establishing the natural order and infusing the divine light into the planet for balance, would you agree with that Cobra.

COBRA - Yes. I would like to say that Los Angeles area is one of the key points for the planetary liberation regarding disclosure. It is one of the possible entry points for the disclosure intel to be released. And it's one of the most important portals, entry points for many many ships, light ships of the light forces that will arrive at the time of the first contact, so it's one of the key places on the planet. And positive E.T. activity in that region will continue and will actually increase at a certain point.

Rob - Yes, the city of Angels. Louisa, you had another question for Cobra.

Louisa - OK. I guess what I want to know is how do people know whether they're from the same soul family? I know this is part of the same question. But this is follow-up. How can you find your soul mate or twin flame and how can you know who they are or if there is. . . Is there still like a mission or something. Is there some sort of purpose for this time. It is special for this particular time. Would you know about that.

COBRA - OK. So basically people from the same soul family recognize each other because there is certain familiarity of energy. They feel that they have known each other from before and with soul mates, that energy is even much stronger. But for twin souls, this has not happened yet, so it's a question which is not yet to be answered.

Rob - I would add that it's an energetic, it's a biological and vibrational feeling that everything will be well and good. I'd like to say thank you to the Ambassador, to Louisa, to Cobra for having this and to the GoldFish Report. For 4 people here, we did a pretty good job. I'd like to ask the Ambassador to give a final statement that you would like people to hear in regards to this interview, if there's anything you'd like people to know. Ambassador, please give us 2 or 3 minutes in a closing statement of what you feel the people from Cobra's side who will be introduced to your work, what you would like them to know. Thank you.

AMBASSADOR - I would like to say that I think this is very important that we sit down and have this form of discussions that we have. It is important that we come and exchange ideas and opinions and work together in cooperation because the problem that I see is so much in this alternative media and alternative ideas is that there is so much close mindedness and so much called my own area and they don't want to let each other in. We are here to serve humanity and to serve ourselves and our families and for that we need to come together, work together and exchange ideas because together we are strong and maybe someone has some knowledge that the other one doesn't have and with that knowledge we can make a better world so I think it's important to continue this type of discussions and continue this form of cooperation. That is what I wanted to say. And I want to thank both you and also Cobra for taking your time to have this discussion that we had today.

Rob - Thank you so very much. Cobra, would you like to give a closing response. Cobra, if you would give your final thoughts today.

COBRA - Yes, actually I'm very glad that this conversation happened because this is one step forward in uniting forces. I hope in the future more and more people will be doing interviews like this - joint interviews with each other because this will create a resonance field that is quite much needed on the surface of the planet for the final push for the final liberation. And I also like to thank everybody. Actually on the 21st of November, I hope this will be posted before the 21st of November, we're having a global meditation to accelerate the event as much as possible in positive ways. If people can join that meditation they can actually assist quite much in accelerating the change because people feel that it's taking too long and I agree. It's taking far too long. We have the power to accelerate this. This moment is now. Thank you everybody.

Rob - Thank you both very much. It's been wonderful and Louisa, I want to thank you for coordinating this and I appreciate your time and effort here and I want to thank all the listeners for listening and to realize that here we have 2 people who choose to remain anonymous for security sake, are willing to come together to discuss maybe slightly different opinions or understandings, but both sincerely seeking to help humanity and to create positive change in the world.

The Ambassador through his work in representing the Elders that he works with to bring about change in the financial tyranny sector, and Cobra in clarifying the hostile forces and the on-going plans of liberation on a more esoteric or hidden level in the non-material realms to give the light workers faith that there is a process, it is on-going.

So 2 well intended servers of the light here. I really appreciate your intent, both of you and Louisa for facilitating this as well. I'm going to propose that at some point in the future we actually have to have some physical meetings with these groups, with these supreme councils and these groups need to bring their disclosure process out into the open in public forum discussions that the public can learn and meter in on. At some point in the future we can look forward to that. It's going to happen. In the meantime. Victory to the light. Thank you Red Dragon Ambassador, Louisa and Cobra.
