RE: EI Community Application Grant

Dear Mr. Driscoll:

The Green Lake Sanitary District wholeheartedly supports the Green Lake County Sustainability Team as an active member and supports Green Lake County's desire to become an Energy Independent Community. As part of that extended community, we also support the WI 25% by 2025 initiative as outlined in Governor Jim Doyle's Executive Order 192.

The management and Board of Directors at the Green Lake Sanitary District desire to pursue energy solutions that go beyond the low-hanging fruit of energy reduction and conservation and address the utilization and dependence on fossil fuels for our energy needs. We are eager to find economically viable alternatives for the production of energy and fuels from renewable resources for utilization within our facility and organization and believe that the Energy Independent Community initiative being developed and promoted through the WI Office of Energy Independence is a smart and efficient means to assist communities and the State in meeting the difficult but obtainable 25 x 25 goals.

We look forward to the collaborations that will be fostered through the EI Community Program and proudly join the membership of WI Energy Independent Communities with this declaration of support and active pursuit of 25% by 2025.
