

TOTAL LUNAR ECLIPSES

LUNAR ECLIPTIC PATTERNS FROM THE LIBERATION OF JERUSALEM 1966-2020

SOME SPECULATIVE MATH CALCULATIONS

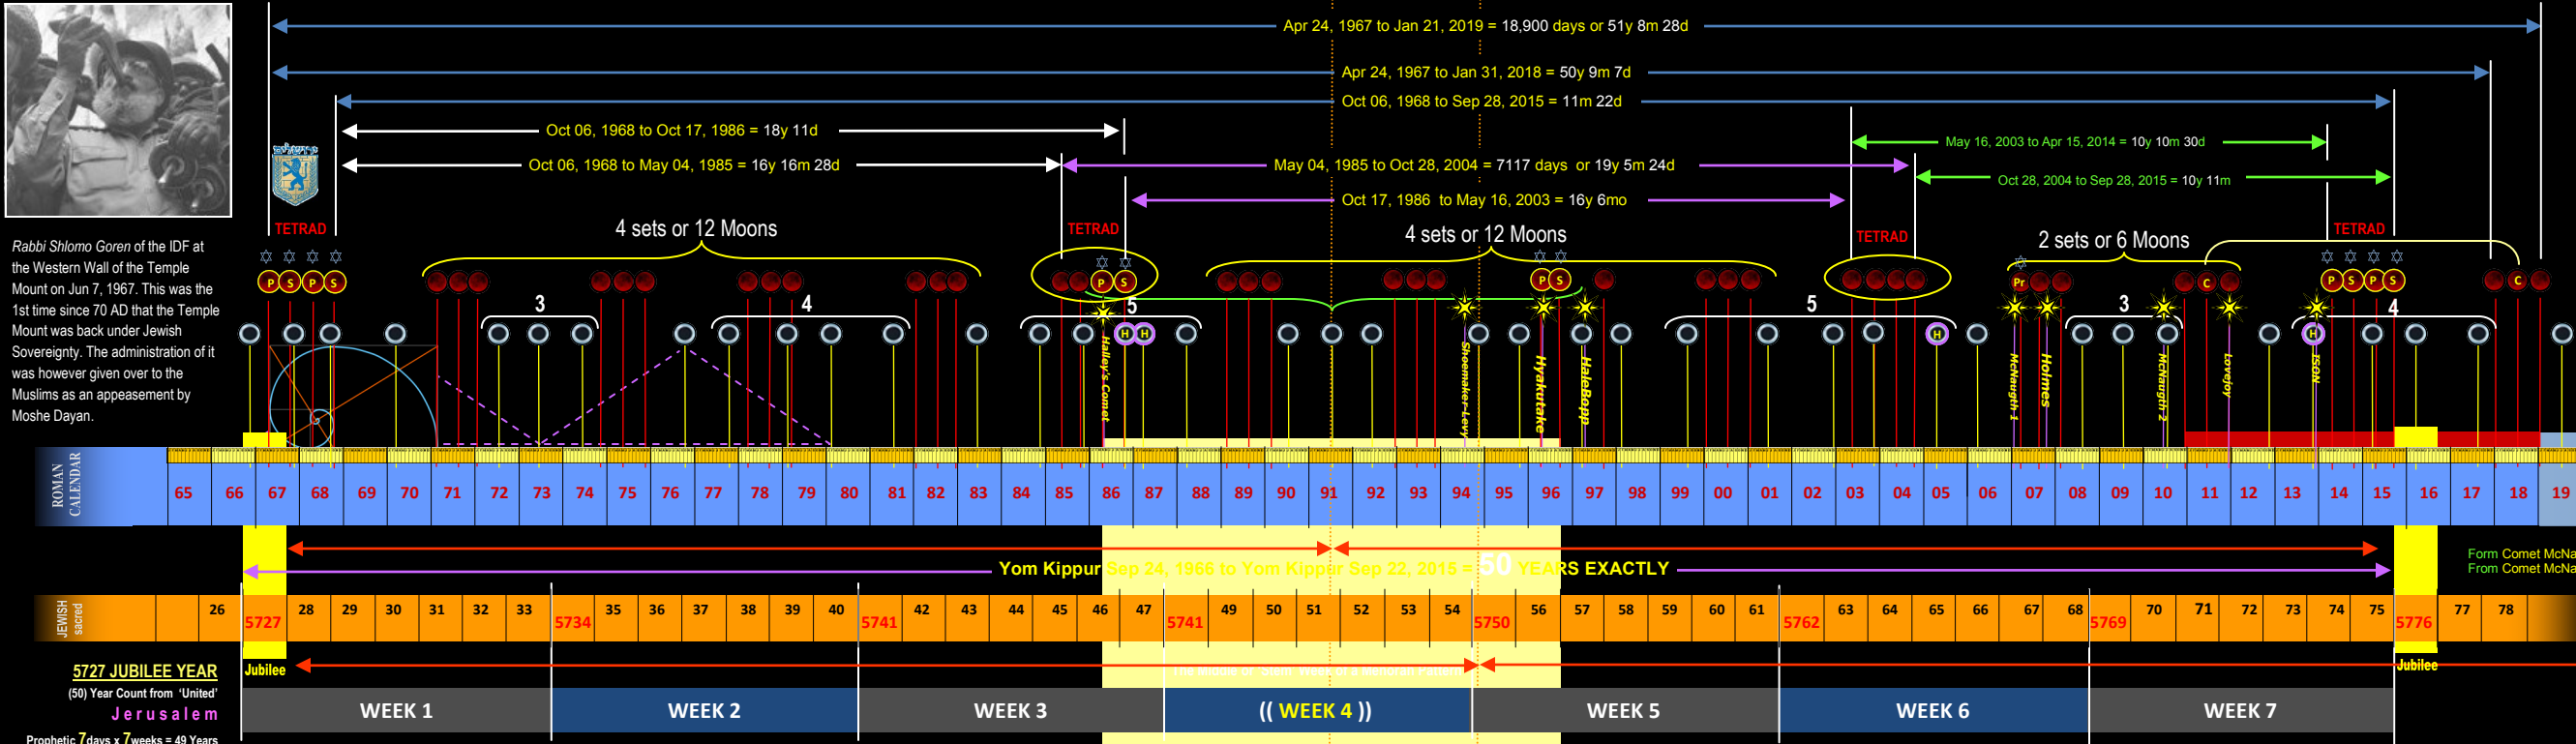

- 7 (Weeks of Year) = 49 year of 360-day years, 30-day months, 12-month years
- 49 (Jewish Years) x 360 days = 17,640 days
- Apr 1, 1969 Passover Eve Knesset voted to 'Restore & rebuild Old Jerusalem' *If count [49 Jewish Years] from date rebuilding started, it takes us to Rosh Hashanah 2018.*
- Jun 6, 1969 reconstruction of Old Jewish Quarter started due to war damages *If Daniel 9:29 has a double-meaning regarding the count that starts from the 'Decree' to rebuild Jerusalem, then 2018 would be the maximum limit. The Lunar Eclipse timeline ends at 2018.*
- **1969 x 49 Years = 2018 (Year of Central Bull's Eye Blood Moon)**

The purpose of this chart is only to illustrate the pattern of the Total Lunar Eclipses as it pertains to the signs that are to be in the 'Moon, Sun and Stars' that Christ spoke about that would characterize the End Times before His 2nd Coming. This timeline will start from the re-capturing of the Old City of Jerusalem in 1967. Prophetically, the countdown to perhaps the 3rd Temple began from the capture of the Temple Mount on which the Temples once stood. The timeline will highlight several peculiarities associations with the patterns of the Total Lunar Eclipse pattern. For the purposes of this illustration, 1) Only the Total Lunar Moons will be plotted. 2) Only the Total and Hybrid Solar Eclipses will be plotted for illustration. 3) Only the significant comets during this time period will be considered and plotted on the timeline. 4) IF the Jubilee count was in deed in 1966, then the 7 Weeks of Years corresponds to the 50th count that occurs on 5776. A brief overview of the significant and ancient comets will be given. Some observations will be given as to the symmetry and mathematical arrangements of the Total Lunar and Solar Eclipses patterns with comets. This chart is not intended to predict dates or events but is for illustration purposes only. All dates are taken from the NASA database.

Rabbi Shlomo Goren of the IDF at the Western Wall of the Temple Mount on Jun 7, 1967. This was the 1st time since 70 AD that the Temple Mount was back under Jewish Sovereignty. The administration of it was however given over to the Muslims as an appeasement by Moshe Dayan.

SOME OBSERVATIONS

- Clustering of 5,4,3 Solar Eclipses appear to mirror and repeat later on in the timeline
- 3 'centers' occur in the timeline, Solar Eclipse of '91 & Lunar Eclipse of '96, BM of '07
- 3 prominent comets cluster around the center the Solar Eclipses form '94-'98
- 4 Comet cluster from '06 to '11 appear to be somewhat symmetrical to Blood Moons
- The Jubilee 50 Years count from '66 to '16 match a 7 Week of Years
- All 4 Moons of the Tetrads of '67-'68 & '14-'15 occur on Holy Feasts
- Only last 2 Moons of Tetrads '86 and '96 occur on Feasts, 10 years apart
- Rare Hybrid Solar Eclipse appears to announce commencement of '14-'15 Tetrad
- Sukkot of '86 is accented also by 2 successive rare Hybrid Solar Eclipses
- The Total Lunar Eclipses sequences appear to have phi ratios at certain intervals
- At certain intervals, Total Solar Eclipses are marked off by a 3.5 / 7-year sequences
- The Blood Moon of Passover '86 is accented by Halley's Comet
- The Blood Moon of Passover '96 is accented by Comet Hyakutake
- Comet Holmes Passed 'Demon Star' Algol Jan '08 same as Hyakutake and HaleBopp
- Comet McNaught C/2009 R1 passed Star MIRFAK June 14, 2010 in Perseus
- The Tetrad of '14-'15 is centered between rare Central Blood Moons of '11 and '18
- Timeline appears to have multi-layered Menorah patterns from micro to macro levels
- Comet ISON reached perihelion on Hanukkah, Nov 29 2013.

- Tetrad Sequence (4)
- Total Blood Moon
- Total Solar Eclipse
- Hybrid Solar Eclipse
- ☆ Jewish Feast
- C Central Moons
- P Passover
- Pr Purim
- S Sukkot
- Jubilee Year
- Period of between Central Blood Moons
- Time-frame between 2 Blood Moon that have a corresponding Jewish Feast & a major

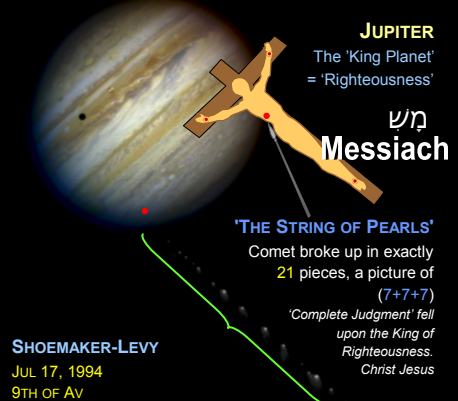

COMETS

Out of the hundreds of comets witnessed over the decades, there are 4 in particular that stand out. These happen to fall within the central time frame of 1986-1996. A period of 10 years that begins from the 1966-1967 Tetrad and culminates with the 2014-2015 Tetrad. What is of importance is that these comets are 'ancient' in that they happen to coincide with suggested key Biblical historical events. The graph suggests that these comets perhaps have signaled a countdown of sorts to the last Tetrad of 2014-2015. What is to come of this time/event remains to be witnessed.

1996 HYAKUTAKE C/1996 B2

Yuji Hyakutake discovered the comet. Five weeks after the discovery of the comet it traveled 16 million km from Warth. SOHO images showed that the comet had three separate tails. It is believed that the comet last appeared around 6000 B.C. Some speculate that this would put it at the age of the Deluge or Noah's Flood account. It is not anticipated again until the year 18,000 AD. This comet was very long and bright at a magnitude of about 0. It was seen with unaided eye from early March until early June.

"Elijah told Judah, the brother of Sala Hasida, 'The world will endure not less than 85 Jubilees, and on the last Jubilee the Son of David will come'" (Talmud, Sanh.97b).

1997 HALE-BOPP COMET

This was a co-discovery. Alan Hale of New Mexico along with Mr. Bopp discovered this comet. The comet had a blue gas tail approximately 20 degrees long and a curved yellow dust tail about 25 degrees long. Comet Hale-Bopp was bright at ~1 magnitude. Hale-Bopp remained above magnitude 0 for many weeks and remained a unaided eye object from July 1996 to October. Perihelion was on 1997 April 1st. This comet came to have two names that year, Hale-Bopp and the Great Comet of 1997. Scientists were astounded by the comet and calculations showed us that the comet last appeared around 1500 B.C. Some Biblical Scholar put this timeframe around the Exodus of the Jewish Nation from Egypt led by Moses.

1986 HALLEY'S COMET

This comet appeared in the late Fall. The tail was reported to be approximately 20 degrees long. According to Josphelus, this comet was seen around 66 AD. This timeframe puts it at 3.5 years prior to 70 AD, which would be the 'Halfway Point' of the 7 Years that remained before the Temple was destroyed by the Roman Prince, Titus. Jesus Christ first visited the Temple during His public Ministry at around age ~30. Perhaps given this code, it is relating to the construction of the 3rd Temple to come. It so happens that the comet reached Perigee on Apr 1, 1986.

1986 + 30 years = 2016 (AntiChrist dedication of 3rd Temple?)

LUNAR YEAR

354.37 days x 2000 cycles

- or a Sabbath days journey
- 354.37 X 2000 = 708740.
- divided by 365.24 = 1940.47

JUBILEE YEARS: Staring from 1948 - Speculated From the Fall Feast of Yom Kippur to Yom Kippur

1948 1949 1950 1951 1952/1953 1954 1955 1956 1957
 1958 1959/1960 1961 1962 1963 1964 1965 1966/1967
 1968 1969 1970 1971 1972 1973/1974 1975 1976 1977
 1978 1979 1980/1981 1982 1983 1984 1985 1986 1987/
 1988 1989 1990 1991 1992 1993 1994/1995 1996 1997
 1998 1999 2000 2001/2002 2003 2004 2005 2006 2007
 2008/2009 2010 2011 2012 2013 2014 2015/2016 2017

1993 SHOEMAKER-LEVY

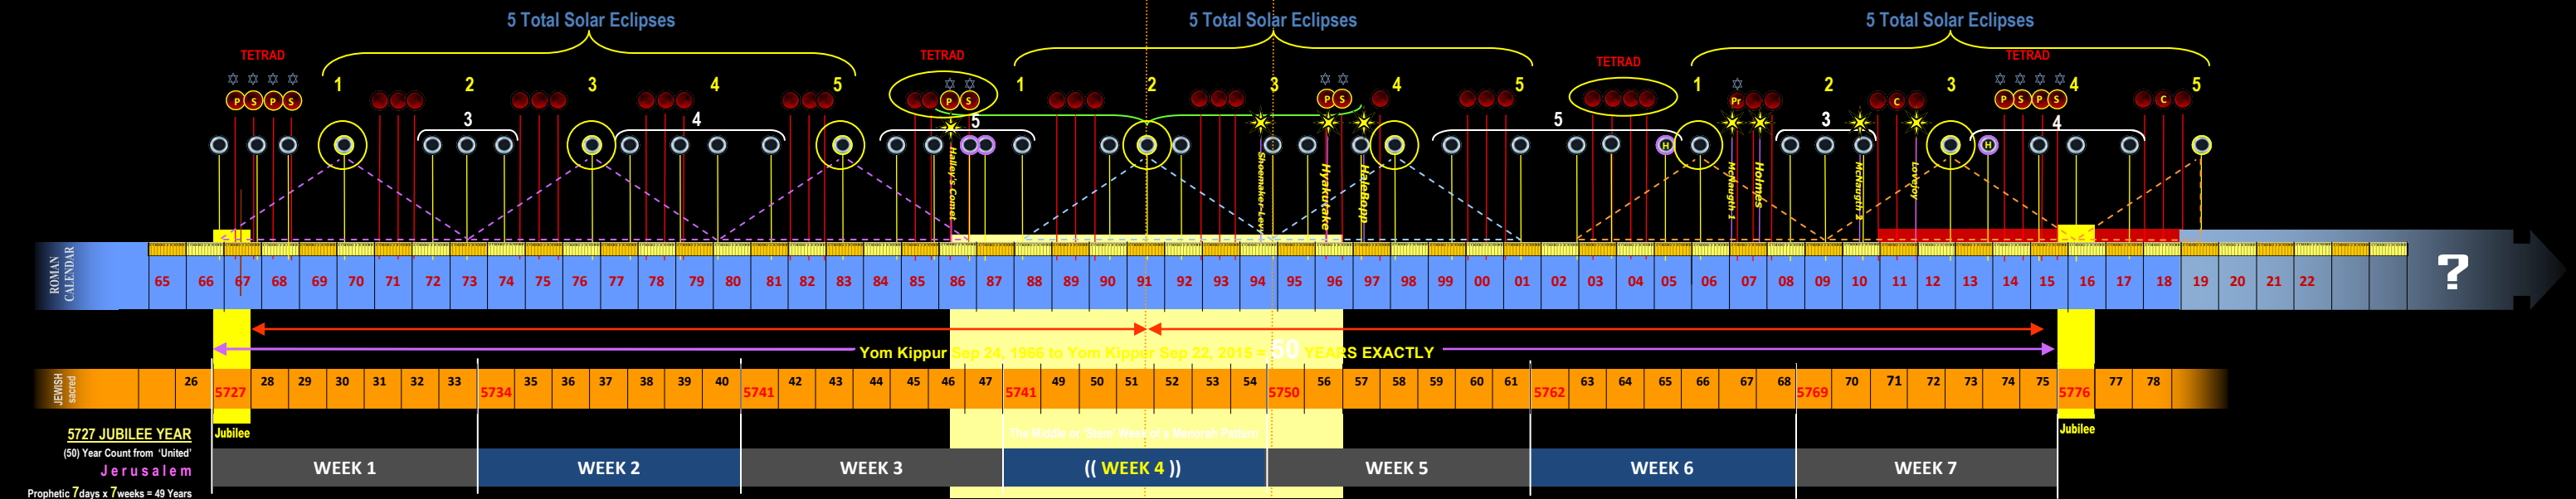

On July 17, 1994 the comet started crashing into the planet Jupiter. As it approached Jupiter, the comet broke apart into a line of small comets, now referred to as 'the String of Pearls'. It broke up in exactly 21 pieces; (7+7+7). A sign of complete judgment. This comet to many Biblical scholars attests to the notion that as Jupiter is known to be the 'King Planet' or the Planet of the King, it is associated with the Messiah. In the Hebrew the word connotes 'righteousness'. Perhaps we were seeing the awesome power of the LORD warning of a coming judgment to the world. Just 1 impact could have consumed the whole Earth. It is also a picture of what Messiah did. In Christ Jesus, YHWH in His love for Humanity and righteousness judged the SON of GOD for the sins of Humanity. The puncturing of Jupiter by the comets on its left lower side echoes the wound Jesus received at the Cross when He was punctured with a spear at His lower side. It so happened that the date was the 9th of Av, the infamous date in which the 2 Jewish Temples were destroyed.

TOTAL LUNAR ECLIPSES

LUNAR ECLIPTIC PATTERNS FROM THE LIBERATION OF JERUSALEM 1966-2020

This is to show that there appears to be 'interval's or 3.5 years related to specific Total Solar Eclipses sequences.

- If the count would start on the Total Solar Eclipse just before the Tetrad of 1967, from thereon the Total Solar Eclipses produce interval patterns.
- The total 7 Year Solar Eclipse interval seems to mark the particular sequences.
- If this sequence pattern is valid, then a secondary Solar Eclipse count can be ascertained from the initial 7-Year Solar Eclipse to render a 3-4-5 Solar Eclipse pattern leading to the center of the timeline.
- A similar count is then also 'mirrored' from the opposite end of the timeline leading away from the 'center' to form a 5-3-4 Solar Eclipse count.

"Elijah told Judah, the brother of Sala Hasida, 'The world will endure not less than 85 Jubilees, and on the last Jubilee the Son of David will come'" (Talmud, Sanh.97b).

TOTAL LUNAR ECLIPSES

LUNAR ECLIPTIC PATTERNS FROM THE LIBERATION OF JERUSALEM 1966-2020

This is to show that there appears to be '2' Centers of the timeline.

- 1 The 1st 'center' of the timeline occurs on the Total Solar Eclipse of 1991 given the distance between the Total Solar Eclipse of 1970 to the last Blood Moon of 2019.
- 2 The 2nd 'center' of the timeline appears to correspond to the Total Solar Eclipse of 1994 given the distance between the 1st Blood Moon of 1967 to the last Blood Moon of 2015.
- 3 A 3rd 'center' is ascertained by the 3 comets that intersected Algol the Demon Star in Perseus Constellation, Hyakutake 1996, HaleBopp in 1997 and Holmes in 2008. (1-2-3) The total Judgment of Satan about to commence.

5727 JUBILEE YEAR
 (50) Year Count from 'United'
 Jerusalem
 Prophetic 7days x 7weeks = 49 Years

- Central Moons
- Passover
- Purim
- Sukkot
- Jubilee Year
- Period of between Central Blood Moons
- Time-frame between 2 Blood Moon that have a corresponding Jewish Feast & a major

TOTAL LUNAR ECLIPSES

LUNAR ECLIPTIC PATTERNS FROM THE LIBERATION OF JERUSALEM 1966-2020

This is to show that there appears to be an approximation of a 'Menorah' pattern from end-to-end of the 1967-68 and 2014-15 Tetrads.

- IF the Menorah pattern is overlaid onto the timeline, each Menorah Branch corresponds to the end Tetrads, 2 pairs of Triads and the Center Stem symmetry of Lunar and Solar Eclipses.
- Also that there are also 3 Total Solar Eclipses to the left of the Center Stem highlighted in a yellow circle and is mirrored to the right of the Center Stem for a total of 7. This mirrors the 7 Lunar Tetrad/Triads count.
- IF there is something here going on with the Menorah pattern, it does correlate perfectly to the speculated 7 Weeks of Year or the 49 Jewish Year count that puts the Jubilee at 2015/2016 or 5776, the 'Year of Light'.

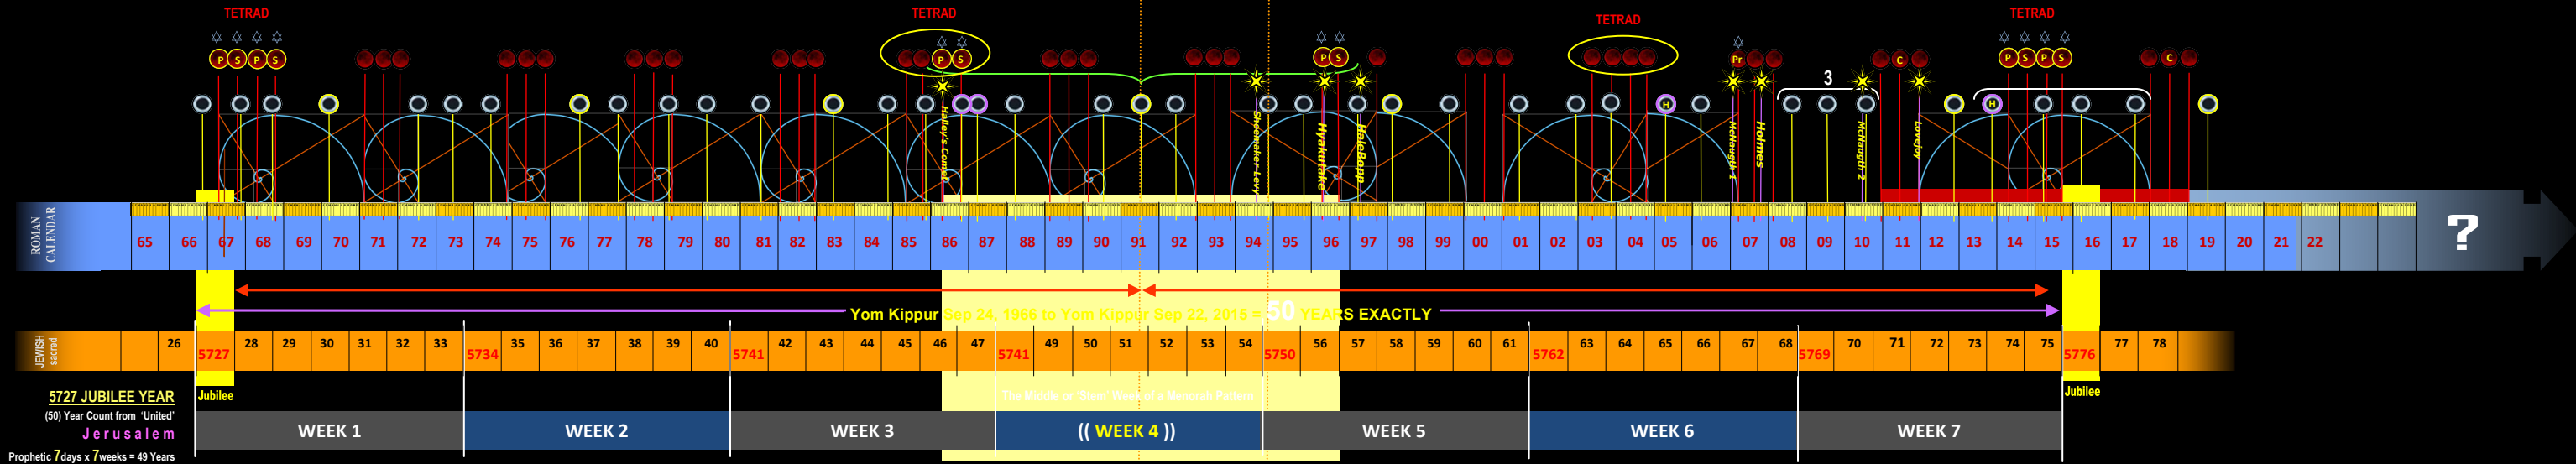

TOTAL LUNAR ECLIPSES

LUNAR ECLIPTIC PATTERNS FROM THE LIBERATION OF JERUSALEM 1966-2020

This is to show that the phi or Golden Ratio 'intervals' related to specific Lunar & Solar Eclipses sequences can be amplified to a different frequencies.

- This type of celestial symmetry cannot be the product of random chance, evolution or coincidence.
- The phi ratio applied to this Eclipse timeline demonstrates a very well thought-out & calculated measure of time.
- The first few phi sequences show the flow and frequency of the Eclipses, the later part of the timeline demonstrates that the phi ratio is reversible or symmetrical as well.
- This is just one variation of the phi ratio interval, the frequency can thus be amplified as shown in the next chart.

THE FIBONACCI SEQUENCE

The phi golden ratio is seen throughout all of God's creation as a signature and code of intelligent design. This type of celestial symmetry cannot be the product of random chance, evolution or coincidence. The phi ratio applied to this Eclipse timeline demonstrates a very well thought-out and calculated measure of time. The Sequence is based on the mathematical works of *Leonard Fibonacci*, who lived in the 13th century. The *Fibonacci Sequence* is also referred to as *The Golden Ratio* ϕ . This Ratio has been found to occur in many forms within nature, basically in all of Creation.

$$1.618 = \text{phi}$$
