On Friday, January 17, 1997 I had gone to out at Western Supply with my grandmother and grandpa Stocks, my uncle J.I. and my Aunt Bonnie. We got back to my grandparents house at about 8:00 pm. I stayed there for a few minutes then I went to my house at #771 Johnson Road, Lonoke. I started watching television but there wasn't much on so I turned it off. I sat on the couch in the living room. I started thinking about all the trouble my dad and I were having and I started crying and I started getting mad. I got a .45 caliber auto matic pistol that my dad kept in his gun cabinet and another clip. I put the extra clip in my pocket. I don't think it had any bullets in it. I knew the gun was loaded. I carried the gun with me as I went from room to room messing up the house. In mom and dad's room I emptied out drawers and I hit their TV with a golf club. I got the combination to the safe out of the encyclopedia the S volume and opened the safe I scattered the papers around. I knated over the ironing board. I think I messed up all the rooms except for mine. All the time I was doing this I kept thinking and kept getting mad. After I messed up the house I tried

to kill my self. I put the barrel of the gun in my mouth but I couldn't pull the trigger. I did this twice. Between these two attempts I had gone out to my car and sat in it for a few minutes.

Sometime between 10pm and 10:30pm I was standing in the living room with the gun in my hand when Neather came in the front <sup>CARPORAT #5</sup> door. Neather saw the mess in the house and said she was going to call 911 because she thought someone had broke into the house. She had the phone in her hand when I told her not to. I told her to leave. She hung the phone up. At this time mom and dad came in the carport door. They both saw how the house was messed up and I think mom said call 911. I was still in the living room and I ran into the kitchen. I saw dad with the phone in his hand, and I started shooting. I shot my dad first then I just kept on shooting until mom dad and Neather were on the floor. I remember shooting my dad in the head after he was on the floor but I don't remember shooting the others after th were down.

After the shooting was over I got scared. I remember picking up the shell casings that I could find and I put them in my coat pocket.

HKS

I went out to my car. Then I went back to the house. I kicked open the front door of the house and I got the jewelry that was in the safe and I think I got some from Heather's room. I put the jewelry in a white plastic trash bag. I remember that I prayed in the kitchen, I begged God to bring them back.

I then got in my car and I left. I went to Arkadelphia. I was scared and I wanted to see my girlfriend, Jan. When I got to Arkadelphia I threw the gun out the window as I was crossing over a bridge. I think the bridge was over the Caddo River. I then drove to the Pizza Hut and I threw the bag of jewelry in the dumpster that was in the parking lot.

I left Pizza Hut and went to Feaster Trail that is near the Campus of Henderson State University. I put the gloves that I was wearing in a trash can near the trail. I threw the shell casings, the clip and a Buck hunting knife in a stream near the trail.

After this I went and got some gas, a cone and some alcohol. I then went to the apartment I used to live at Henderson University. I followed somebody in and I went to my old apartment #416. My old roommate, Keith Anthony was not there so

HCS

I went to apartment #415. Kelly Cunningham Lewis  
there. She is a friend of mine. I was there  
until Steve Finch and Mark Hellingworth got  
there to tell me about my parents and my  
sister. HCS
