Come and float the Tar River and experience what our forefathers experienced. No houses, no walking trails, just the old Tar River and it's tales....

Highlights:

A stop at Turtle Rock and you will hear old tales of life on the river. Enjoy a hot dog roast and beverage as you listen.

Venture further you will hear of the construction of the old Montgomery Railroad from Spring Hope to Rolesville. You may even see and hear some of the people who lived and worked on the river and railroad in the 1900's.

Legend has it, that they still live and walk the old dikes on the river!!

As you wind down your trip you will be greeted by the old railroad truss and the stories it may tell. OHHHHHH....be careful there!!

Your trip will last approximately 2 – 2.5 hours, depending on the river flow and the creepy creatures that lurk along its banks.
