FRIENDLY REMINDERS:

-FERTILIZER: If having fertilizer applied at your residence, please ensure that fertilizer is put on the grass only and not on the sidewalks. **Remember that everything that goes into the storm drains end up in our lake and fertilizer can cause a bloom of algae.**

-MOSQUITOES: Now is the time to check your property for areas with standing water. Empty/turn over any containers or pots where water can pool. Don't provide a breeding ground for mosquitoes.

PARK CLEAN-UP: We had a fun and productive morning at our park clean-up on April 18th. Our neighbors showed up and some brought their children. We were able to cover the pond, the lake, and the surrounding woods/park. Because we had such an amazing group show up, we were done in about two hours! A HUGE THANK YOU to all that showed up willing to help!
