

Know thy responsibilities and benefits. Read, learn and be free. You owe me zero financially and go and prosper with blessing the world with ordinations of interfaith. All are waiting to hear this great and good news.

To receive tax benefits you need to start your own non profit. To perform weddings you need to know your nation and state, city or town rules.

I made it easy for you because organizations made and make it difficult to be a free spirited Interfaith minister.

Usually the state laws licensing provide any recognized member of the clergy (such as a Priest, Minister, Rabbi, Imam, Cantor, Ethical Culture Leader, etc.), or a judge, a court clerk, and justices of the peace have authority to perform a marriage. However in some states even the clergy must be first certified or licensed.

Some states have laws that permit other persons to apply for authority to perform marriage ceremonies. For example, California law permits anyone to apply for permission to become a Deputy Commissioner of Marriages — the grant of authority is valid for one day — and thus officiate at the wedding of family or friends on that one day.

In the United States, certain states and some counties have guidelines for ministers who want to perform marriages. Look for a summary of what is involved to perform marriages in each state. Google, remember this is self training and personal responsibilities on your part.

Recall I am responsible for ordaining you and you are responsible for being an Interfaith Minister with all the responsibilities you need to know and understand. Be cheerful! Know your responsibilities and benefits; rewards as an InterFaith Minister/Priest/ or Priestess!.
