

Ticonderoga's Common Roads (**highlighted yellow above**) will be snow plowed based on the following:

There must be at least 6" of accumulated snow before plowing will begin.

When necessary, the plow will leave a few inches of snow on the road surface to avoid damaging roads and equipment.

If necessary, owners are responsible for snow removal on non-common roads leading to their property.

NOTE: The common road Ticonderoga Drive (**marked red above**) is never snow plowed because of dangerous plowing conditions.

NOTE: Common roads will be plowed to the last permanent owner's resident (i.e. a stretch of common road will not be plowed if it does not service a permanent resident).
