April is Lawn & Garden Month – Organics and More

Nature's Supreme Lawn and Garden Food 40# Organic Fertilizer

NEW

- All-purpose organic fertilizer
- Granulated poultry manure with low odor
- 4-3-2; Slow and steady (organic) nutrients
- 7% calcium-exactly what plants need to flourish & build strong roots
- Formulated for use in gardens, flower bed and lawns
- 40 lb. bag; covers 4000 sq. ft.

\$15.⁶⁵

Organics - Along with this new Nature's Supreme organic fertilizer, we also carry Milorganite as another organic choice.

Corn Gluten Meal is an item Hohl's stocks in the spring and summer. This is used on lawns and gardens as an organic pre-emergent herbicide; it prevents seed germination, so you would use this on established lawns and gardens, because it prohibits germination of all seeds, not just weed seeds. You may use on your garden, after seedlings emerge out of the ground to prevent weed seeds from

germinating and provide an organic nitrogen fix of approximately 9-0-0. It only takes 2 lbs. per 1000 sq. ft., taking up to 2 months to break down in the soil. As the corn gluten meal breaks down, it enriches the soil and adds organic matter.

Corn gluten meal is also a popular method to control ants. Pouring it wherever you see ants traveling is the best option. They will pick up the gluten and take it to the nest where they will feed on it. Because the ants cannot digest it, they will starve to death. It may take up to a week or so before you see your ant population dwindling. It should be noted that corn gluten meal (a byproduct of manufacturing corn starch or oils to produce ethanol) is not the same as the corn meal (dried, ground corn).

More - As always we are fully stocked with our usual standard fertilizers; 9-23-30 for your corn starter; treated urea (46-0-0); DAP (18-46-0); Potash (0-0-60); 4-10-40 w/S&B for hay, beans & clover; 10-10-10 & 18-18-18.

For the lawn, we carry Award weed & feed products and offer the 4-Step program which is easy to follow and very economical. Visit our [website](#) or stop in for a copy of the [4-Step Program](#). We also carry lawn seeds by the lb. or 50 lb. bag. Our lawn seed starter fertilizer (20-12-8) is seed safe and can be applied with the seed to save time.

April 10th is National Farm Animals Day

Take **\$1.⁰⁰** off per bag of any Hohl's brand calf, chicken, goat, horse or pig feed, when you mention this special.

STRAW BALE GARDENING - visit hohlsfarmsupply.net or stop in for complete instructions

All you need is:

- Straw Bales
- Urea & 10-10-10 fertilizers
- Seedlings
- Water

To obtain optimum height and/or room for viney plants, use pallets under the straw bales.

Food Plot 101: Spring Food Plot – *NEW Product*

This year, we are stocking a limited supply of these Soybeans. If you are looking for more than a bag or two at a time, please call us, so we can make sure we have them available for you. This is a great addition for your Food Plot, with no tech number needed; late maturing, increased plant height and lots of forage, all while putting nitrogen back into your soil.

8847 GT1 Forage Soybeans

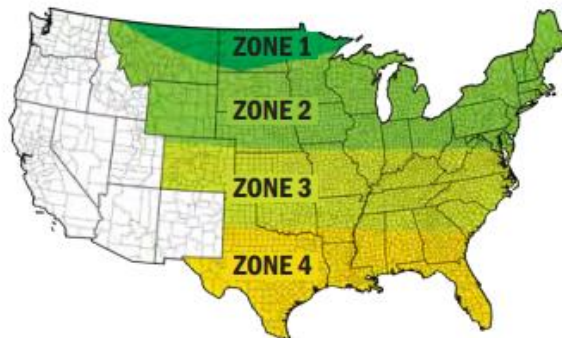

- Spring/fall planted annual species offering spring/summer/fall food source
- Performs well on light to heavy soil types in light shade to full sun
- Glyphosate tolerant, late maturity soybean stays green longer
- Increased plant height

A late maturing, glyphosate tolerant soybean with increased plant height, creating large amounts of forage.

LIFE CYCLE:	SEEDING RATE (SEEDS/ACRE):	BAG SIZE (SEED COUNT):
ANNUAL	140,000	140,000

PLANTING WINDOW (DATES ARE APPROXIMATE)

ZONE 1	ZONE 2	ZONE 3	ZONE 4
