January 11, 2016

Dear Mr. Keith

Congratulations, the Illinois Department of Agriculture has reviewed your application and pursuant to 8 IL Admin. Code 1000.500, hereby approves your sister laboratory, located in Monticello, Illinois, to handle, test, and analyze medical cannabis. This approval is conditioned upon your use of the validated methods you are in the process of being approved for, in regards to the information you provided to the Illinois Department of Agriculture in your application. In addition, within one year from today, your lab must become ISO/IEC 17025:2005 accredited.

You must adhere to all applicable statutes and rules regarding the transportation, testing and handling of medicinal cannabis.

You will be listed as an approved laboratory on our website.

Again, congratulations and good luck!

Jack Campbell
Bureau Chief
Bureau of Medicinal Plants
Illinois Department of Agriculture
