DESCRIPTION: This original (pre-Head and AMF era) Red Wing Hunter is a great looking and performing re-curve. The RWH was the original speed bow and one of the most copied bow designed. Shedua riser. Bow has no delamination; no cracks; limbs are straight. Overlays and tips are in great condition. No drilled holes; No chips, dings or cracks. No stress cracks or crazing. There are some stress lines that developed when the factory install quiver bushings were installed. These do not extend past the riser or into the working area of the limb (see pics on page 5). A few minor scratches and nicks here and there. Decal is in very good shape. Overall, this is a really nice bow in excellent condition for its age. This bow was put to a stress test (held at full draw for 16 hours to make sure the old glues still held and no stress cracks developed. Then taken to the range and test shot. Comes with a new rug rest and side plate, and a new string.
