Single-Family Household Formation Analysis

Prepared for: City of Oak Point

September 2022

Residential Strategies

Household Growth Forecast: City of Oak Point Custom Trade Area

To arrive at the estimates and projections provided, RSI has utilized the following methodology:

- RSI begins with household and population counts from the 2020 census. It is assumed that these 2020 counts were accurate. Because the 2020 census was completed in/around June 2020, RSI's assessment of new household formation in DFW begins with 3Q20.
- RSI summarizes, by community, new home activity from 3Q20 to date. Information analyzed includes housing starts (new slabs poured), new home closings (physically occupied homes), vacant lots, final platted lots (both under development and vacant land) and preliminary platted lots.
- Based on the development stage of new lots and RSI's knowledge from its builder and developer clients, a forecast is made as to the delivery date of the new communities.
- Based on RSI's knowledge of production builders (a majority of DFW activity is performed by RSI builder clients) and the capacity of new communities, RSI projects start activity for each community and by product type.
- Persons per household ratios are established from prior census information and imposed on new household formation.
- RSI's forecasts are extremely accurate as they are based on 'real world' occurrences.
 With the platted lot approach to determining demand and with RSI's extensive database on new home activity, RSI can paint a very clear picture of household count for the next 24 months.
- The normal time required for new lot development ranges from 10-24 months. In many cases, new projects that will materialize in 3-5 years have not yet been conceptualized. Consequently, RSI's forecasts for the 3-5 year time frame tend to show a drop off in start activity as existing communities build out and replacement communities have yet to be identified.
- RSI's forecasts tend to be conservative and anticipated household growth as summarized in this report is projected at slow to moderate growth rates, depending on the area and current market conditions.
- Please note that RSI's data spans from approximately 1998 to current. Any subdivision
 that was developed and completed prior to that timeframe would not be included in
 our mapped developments. In addition, RSI does not include housing activity occurring
 outside of subdivisions with 5+ lots, manufactured housing or multi-family
 developments. RSI does not track multifamily growth, thus our population forecasts
 include single-family growth only.

Oak Point Trade Area (10-Min. Drive Time) Population and Household Growth Current Quarter Estimates (2Q22), Future Projections

	Custom Trade Area						
Population							
2Q27 Projection*	123,062						
2Q25 Projection*	113,670						
2Q23 Projection*	99,388						
2Q22 Estimate*	93,342						
2020 Census	79,609						
Growth 2020 - 2Q22	17.25%						
Households							
2Q27 Projection*	40,749						
2Q25 Projection*	37,639						
2Q23 Projection*	32,910						
2Q22 Estimate*	30,908						
2020 Census	26,189						
Growth 2010 - 2Q22	18.02%						
New Home Activity (3Q21-2Q22)							
Annual New Home Starts	2,790						
Annual New Home Closings	1,890						
Vacant Lots	1,891						
Lots Under Development	4,415						
Preliminary/Future Lots	3,758						
Total Potential Future Homesites	10,064						
	Custom Trade Area						

Residential Strategies, Inc. conducts a quarterly census of new home activity throughout the DFW metroplex and provides owner occupied household estimates and projections based on this quarterly review of activity.* All estimates and future projections are for single-family development and households only. Multi-family growth is not included.

Residential Strategies

Assumptions, Limiting Conditions, and Copyright

Although Residential Strategies, Inc. (RSI) has used commercially reasonable efforts to obtain information from sources it believes to be reliable and accurate, RSI does not guarantee the accuracy or completeness of such information. Information presented in this report represents RSI's estimates as of the date of the report and is subject to change without notice. This report is not intended as a recommendation or endorsement of any action taken by you or any third party in regard to the subject matter of this report or any other real estate activity. RSI WILL HAVE NO LIABILITY FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, OR SPECIAL DAMAGES, INCLUDING (BUT NOT LIMITED TO) LOST PROFITS, OR DIMINUTION IN VALUE OF YOUR BUSINESS OR PROPERTY, ARISING FROM OR RELATING TO RSI'S SERVICES HEREUNDER, REGARDLESS OF ANY NOTICE OF THE POSSIBILITY OF SUCH DAMAGES AND WHETHER OR NOT SUCH DAMAGES ARE REASONABLE OR FORESEEABLE UNDER THE APPLICABLE CIRCUMSTANCES. RSI'S LIABILITY ON ANY CLAIM OF ANY KIND, INCLUDING NEGLIGENCE, FOR ANY LOSS OR DAMAGE ARISING OUT OF, CONNECTED WITH, OR RESULTING FROM THIS REPORT OR THE SERVICES PROVIDED BY RSI SHALL IN NO SINGLE CASE, OR IN THE AGGREGATE, EXCEED THE AMOUNTS ACTUALLY PAID TO RSI IN CONNECTION WITH THE REPORT.

RSI's statements, analyses, calculations, forecasts, and opinions set forth herein are based on RSI's data collection methods and analyses. If you seek further information regarding any person or company referenced herein, including internal or proprietary information regarding that person or company, you are advised to contact that person or company directly.

The following contingencies and limiting conditions are noted as fundamental assumptions that may affect the accuracy or validity of the analysis and conclusions outlined in this report. Specifically, the parties assume:

- that the DFW metropolitan area, the State of Texas, and the nation as a whole will not suffer any major economic shock during the time period of the forecast contained in this report;
- that general population levels will continue to increase at or above the rate forecast;
- that the public and third-party sources of statistical data and estimates used in this analysis
 are accurate and complete in all material respects, and that such information is a reasonable
 resource for project planning purposes;

Any change in facts affecting the proposed project or any of the assumptions noted above or in the attached report could materially affect the conclusions outlined in this report or necessitate the re-evaluation of all or any portion of this report.

This report has been prepared for the City of Oak Point. While City of Oak Point officials may share this report with their partners and those interested in the Oak Point area, the materials provided herein are not to be reformatted, redistributed, repackaged, or otherwise changed from their original state without prior consent from RSI.

POPULATION PROJECTIONS

State and county population projections.

Source: Texas Demographic Center, Projections of the Population of Texas and Counties in Texas by Age, Sex and Race/Ethnicity for 2010-2050, 2018.

METHODOLOGY

First, a geographic information system (GIS) analysis calculates the project's radius(es). The GIS analysis then identifies the 2019 US Census Bureau Block Groups that intersect the project's radiuses. Then, the GIS analysis calculates the percent of each Block Group within each radius distance (overlap). Next, the overlap percent is multiplied by the demographics for each Block Group. Finally, the radius demographic estimate equals the sum of the overlap multiplied by the demographics for all Block Groups that intersect a radius.

The benefits of this methodology are that it allows for:

- 1. the use of the **most current data** for small area geographies from the US Census Bureau;
- 2. the estimation of demographics for radius distances using dissimilar shaped Census Block Groups; and
- 3. data comparability (because estimates for small radiuses and large radiuses use the same methodology, geographies and datasets).

This methodology assumes that the population is equally distributed throughout a Block Group. This assumption can result in unlikely estimates for small radiuses (i.e. 1 mile) in rural areas with low population densities and thus, large geographic area Block Groups.

NORTH TEXAS COMMERCIAL ASSOCIATION OF REALTORS ®

Texas law requires all real estate licensees to give the following information about brokerage services to prospective buyers, tenants, sellers and landlords.

INFORMATION ABOUT BROKERAGE SERVICES

Before working with a real estate broker, you should know that the duties of a broker depend on whom the broker represents. If you are a prospective seller or landlord (owner) or a prospective buyer or tenant (buyer), you should know that the broker who lists the property for sale or lease is the owner's agent. A broker who acts as a subagent represents the owner in cooperation with the listing broker. A broker who acts as a buyer's agent represents the buyer. A broker may act as an intermediary between the parties if the parties consent in writing. A broker can assist you in locating a property, preparing a contract or lease, or obtaining financing without representing you. A broker is obligated by law to treat you honestly.

IF THE BROKER REPRESENTS THE OWNER:

The broker becomes the owner's agent by entering into an agreement with the owner, usually through a written listing agreement, or by agreeing to act as a subagent by accepting an offer of subagency from the listing broker. A subagent may work in a different real estate office. A listing broker or subagent can assist the buyer but does not represent the buyer and must place the interests of the owner first. The buyer should not tell the owner's agent anything the buyer would not want the owner to know because an owner's agent must disclose to the owner any material information known to the agent.

IF THE BROKER REPRESENTS THE BUYER:

The broker becomes the buyer's agent by entering into an agreement to represent the buyer, usually through a written buyer representation agreement. A buyer's agent can assist the owner, but does not represent the owner and must place the interests of the buyer first. The owner should not tell a buyer's agent anything the owner would not want the buyer to know because a buyer's agent must disclose to the buyer any material information known to the agent.

IF THE BROKER ACTS AS AN INTERMEDIARY:

A broker may act as an intermediary between the parties if the broker complies with The Texas Real Estate License Act. The broker must obtain the written consent of each party to the transaction to act as an intermediary. The written consent must state who will pay the broker and, in conspicuous bold or underlined print, set forth the broker's obligations as an intermediary. The broker is required to treat each party honestly and fairly and to comply with The Texas Real Estate License Act. A broker who acts as an intermediary in a transaction:

- (1) shall treat all parties honestly;
- (2) may not disclose that the owner will accept a price less than the asking price unless authorized in writing to do so by the owner;
- (3) may not disclose that the buyer will pay a price greater than the price submitted in a written offer unless authorized in writing to do so by the buyer; and
- (4) may not disclose any confidential information or any information that a party specifically instructs the broker in writing not to disclose unless authorized in writing to disclose the information or required to do so by The Texas Real Estate License Act or a court order or if the information materially relates to the condition of the property.

With the parties' consent, a broker acting as an intermediary between the parties may appoint a person who is licensed under The Texas Real Estate License Act and associated with the broker to communicate with and carry out instructions of one party, and another person who is licensed under that Act and associated with the broker to communicate with and carry out instructions of the other party.

If you choose to have a broker represent you, you should enter into a written agreement with the broker that clearly establishes the broker's obligations and your obligations. The agreement should state how and by whom the broker will be paid. You have the right to choose the type of representation, if any, you wish to receive. Your payment of a fee to a broker does not necessarily establish that the broker represents you. If you have any questions regarding the duties and responsibilities of the broker, you should resolve those questions before proceeding.

This is not a contract.

The real estate licensee asks that you acknowledge receipt of this information about brokerage services for the licensee's records.
